

ALL-NEW OFFICE

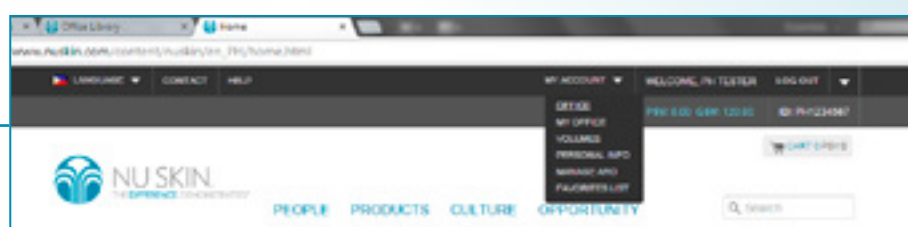

NOW ACCESSIBLE VIA NUSKIN.COM.PH

We are pleased to announce some exciting new technology tools that will make running your business easier—because your success is our success.

Starting April 22, you will be able to access the all-new OFFICE which replaces the former My Office.

Packed with features that will redefine the way you think about running your Nu Skin business, OFFICE will simplify your business, eliminate distractions, and help you increase productivity.

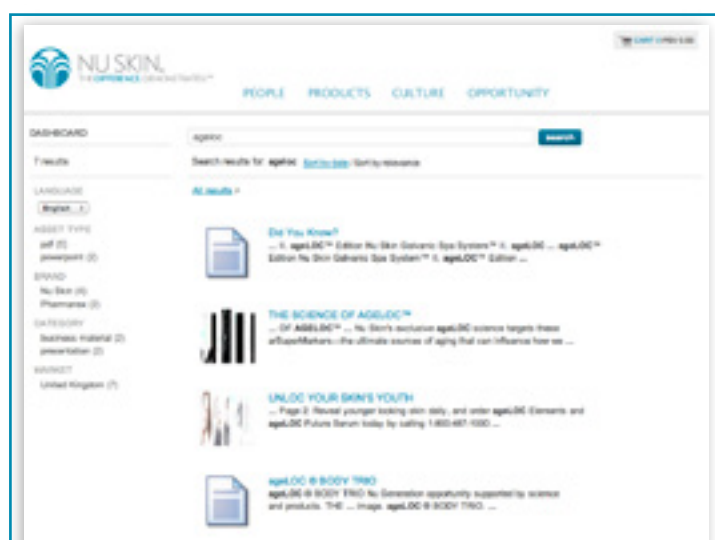

You can take advantage of these new features by simply logging onto nuskin.com.ph, and click on "OFFICE" under the MY ACCOUNT drop down menu on the upper right portion of your screen.

WHY USE OFFICE?

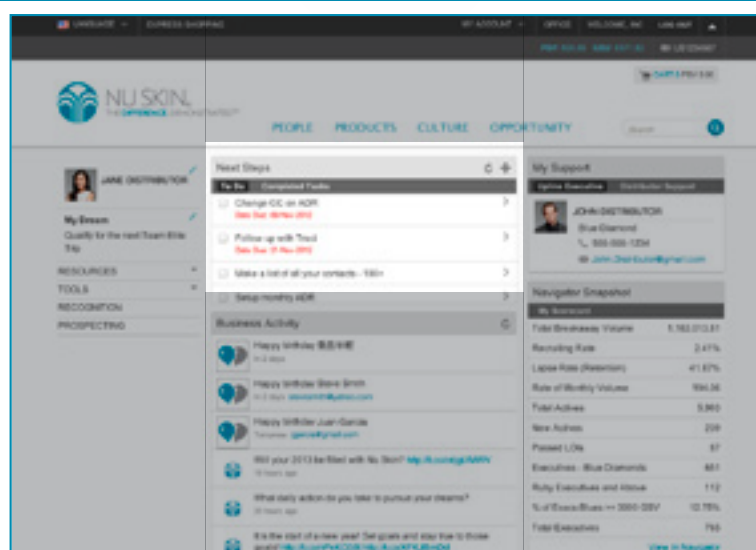

- Central Place to Manage your Business
- Simplify the Business & Maximize Productivity
- Increase your Success
- Provide great Mobile Tools

OFFICE HIGHLIGHTS

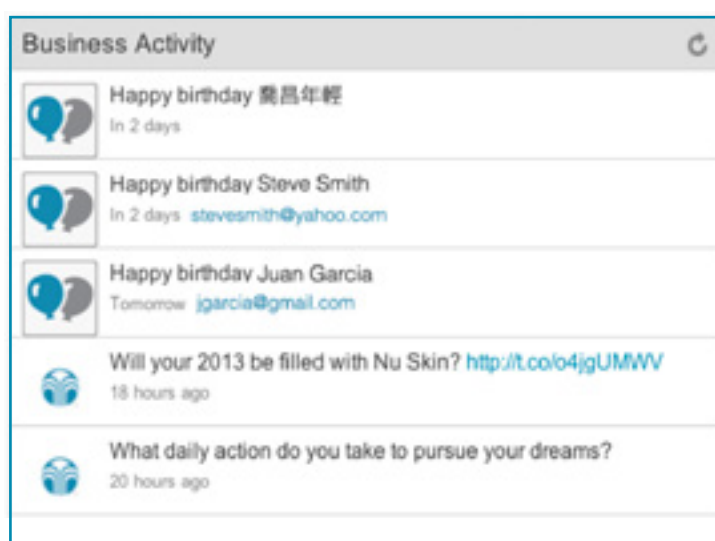

LIBRARY

We know that you need quick and easy access to the assets you use to run your business. We addressed this by combining them in a single place and made them easy to find through a faceted search that lets you narrow content down by language, market, asset type, brand (Nu Skin or Pharmanex), and category (Forms, Training, Presentations, Business Material).

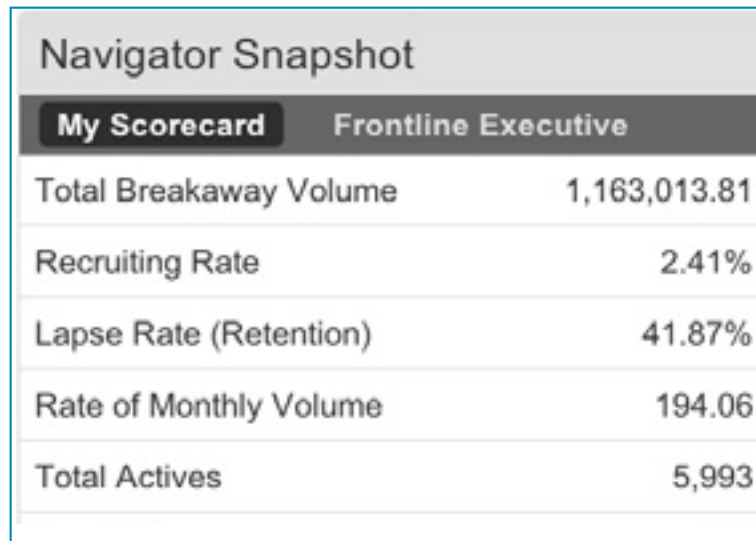

NEXT STEPS

Next Steps is the easiest way to keep track of what you should do next to grow your business. It provides tasks that are based on the best practices of our most successful distributors. Once a task is completed, a new task will appear to keep you progressing. Additionally, you can add your own tasks to the list to remind you of other follow-up items in your business.

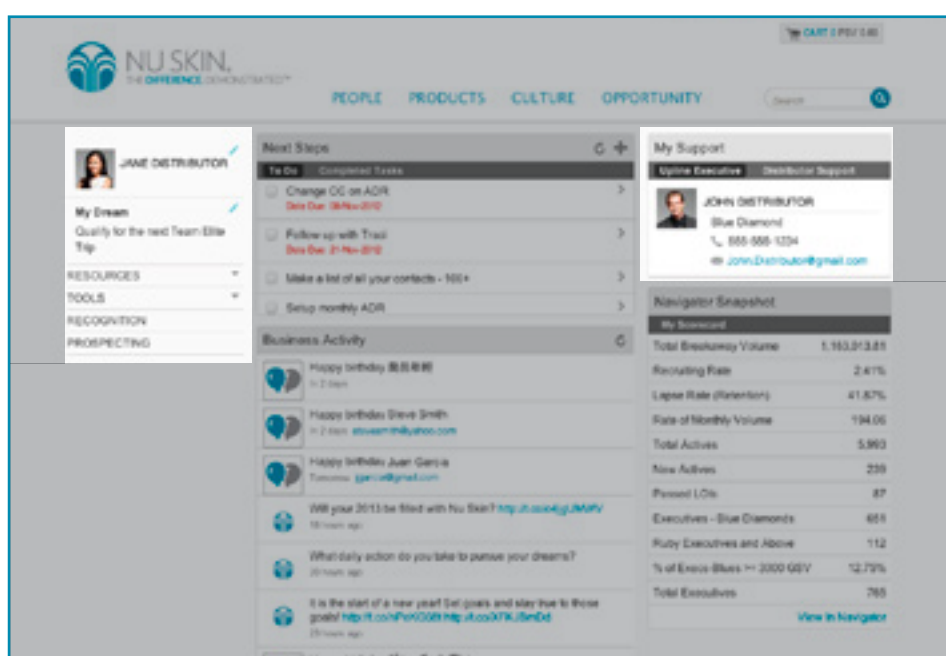

BUSINESS ACTIVITY

The Business Activity widget aggregates the most up-to-date information about your business in a single glance, via news feed. It includes information about your prospects, sponsored distributors' purchases, ARO status, order information, new sign-ups, pin advancements, birthdays, and market communications.

NAVIGATOR SNAPSHOT

If you're like many other distributors, Navigator (V&G) is the heart of your business for gathering information related to your volumes and genealogy. Navigator Snapshot is the perfect complement to the power of Navigator—it provides a view of My Scorecard alongside your other Dashboard information and allows you to link over to full details in Navigator (V&G), helping you stay in touch with your volumes and genealogy even more.

PROFILE AND MY SUPPORT

Simply put, the goal of OFFICE is to help you achieve your goals by providing technology tools that are intuitive and easy to use in a single place. Profile is one simple way OFFICE accomplishes this. By always having your dream front and center, you are constantly reminded of why you're doing this business.

In addition, we have provided the My Support widget, which is also found in Dashboard. My Support provides the best contact information to reach your upline executive, as well as distributor support here at Nu Skin. Now you're always within reach of someone who is anxiously waiting to help you achieve your dream.

We're excited for you to take advantage of these new tools and experience the demonstrated difference they will have on your business. Check out OFFICE today!
