Every Body Deserves Spa Treatments

Positioning

Leading spas use combinations of special treatment tools and formulations to target pockets of fat and toxins, and smooth the appearance of cellulite. Of course, spa treatments require the luxury of time and can cost hundreds of dollars. But now you can get the benefit of spa body contouring in your own home with Galvanic Spa™ II Body Shaping Gel and the Galvanic Spa™ II Instrument and Body Conductor.

Key Ingredients

Theobromine (Theobroma cacao extract):

Theobromine contains a molecule shown to target a certain enzyme in fat cells—targeting this enzyme may help in activating fat breakdown.

Golden Chamomile (Chrysanthellum indicum extract):

Testing indicates the flavonoids found in golden chamomile may help inhibit the storage of fat.

Did You Know?

Cellulite occurs when enlarged fat cells pinch blood vessels, blocking the delivery of cellular nutrients and the removal of waste products (toxins). Increased cellular toxin levels change the cellular metabolism. This change results in the "orange peel" bumps and dimples associated with cellulite. And while diet and genetics are factors in fat cell size, hormones also play a vital role, making it possible for even thin people to have cellulite.

Usage

Use Body Shaping Gel with the Galvanic Spa™ II Instrument and Body Conductor morning and night, two days per week on problem areas. For an extension of benefits, use Dermatic Effects™ Body Contouring Lotion between treatments.

Research shows that when Galvanic Spa™ II Body Shaping Gel is used with the Galvanic Spa™ II Instrument twice in one day, the benefits are cumulative.

Name

Galvanic Spa™ System II

Pre-Treatment and Treatment Facial Gels

Positioning

When your skin looks tired and stressed, a spa facial can provide the revitalization you need. With the Galvanic Spa™ Pre-Treatment and Treatment Facial Gels, you can give your skin regenerative, spa-like effects in less than 10 minutes. The massaging action and galvanic currents enhance circulation, remove toxins, deliver vital nutrients, and concentrate cellular energy. Your skin will look refreshed and radiant—instantly.

Nutriol®

Galvanic Spa™ System II enhances the performance of Nutriol® Hair Fitness Treatment—a concentrated hair and scalp treatment that helps your hair look and feel more abundant.

Using the Galvanic Spa™ II Instrument and Scalp Conductor with Nutriol® Hair Fitness Treatment accelerates the initial onset of benefits by facilitating transport of key ingredients. This facilitation is enabled by the compatibility of galvanic currents and product formulation polarities.

Key Ingredient

Pre-Treatment Facial Gel

- TEA Cocoyl Glutamate purifies skin and allows pores to breathe.
- Marigold, sea kelp, and vanilla extracts soothe the skin.

Treatment Facial Gel

- Magnesium is a necessary component of the skin's natural energy cycle.
- Arginine facilitates recovery from stress.
- Aspartate naturally balances your skin's pH.
- Tocopheryl Nicotinate, a form of vitamin E, helps to moisturize, condition, and provide antioxidant protection.
- Rose, sandalwood, and jasmine extracts condition the skin.
