AP-24[®]

Anti-Plaque Breath Spray

AP-24 Anti-Plaque Breath Spray fights plaque build-up while freshening breath in a convenient alcohol-free spray.

Benefits and Features

- Perfect after midday meals and snacks or whenever you want a burst of freshness.
- Alcohol-free, so you can feel confident using it frequently throughout the day.
- Safe for children.
- Convenient delivery of AP-24 whenever it's not practical to brush.
- Tastes great, unlike other breath sprays that are often overpowering.
- Gives that "just brushed" feeling.
- Leaves teeth feeling slick and smooth.

Usage

Spray three times directly on tongue.

Rub tongue over tooth and gum surfaces.

Use after meals and snacks or anytime you need a burst of freshness.

Ingredients

Plaque Fighting: AP-24*

Other: Water, Sorbitol, Glycerin, Flavor, Xanthan Gum, EDTA, Sodium Saccharin, Sodium Benzoate.

*AP-24 is a patented ultra-emulsion of medical grade, high molecular weight Dimethicone and surfactants (Poloxamer 407 and Poloxamer 338).

Turbid white liquid in a white spray dispenser with green flip cap. 30 ml (1 oz.).
