

Prostate Formula

PROMOTES NORMAL PROSTATE HEALTH*

Positioning Statement

An all natural blend of powerful antioxidants and botanicals, Prostate Formula helps protect and maintain a healthy prostate*

Concept

The prostate is a gland of the male reproductive system. Normally, the prostate is quite small, nearly the same size and shape as a chestnut. The prostate is made up of approximately 30% muscular tissue, and the rest is glandular tissue. Through the years, prostate cells are often exposed to free radical attacks that can result in health concerns and a decreased quality of life.

Prostate Formula is scientifically formulated for results. It addresses prostate health in two significant ways. First, it helps maintain healthy prostate function. This benefit is provided by Prostate Formula's clinically effective dose of standardized saw palmetto extract. Second, it provides long-term protection against free radical attacks with its combination of superior-quality antioxidants. Included in the formula's list of antioxidants are Pharmanex's potent green tea extract, Tēgreen 97® (standardized to deliver 97% polyphenols) combined with lycopene and selenium—all effective in neutralizing free radicals known to target healthy prostate tissues*.

Primary Benefits

- Supports healthy prostate function*
- Maintains a healthy prostate gland*
- Provides long-term prostate cell and DNA protection against free radical damage*

What Makes This Product Unique?

- Scientifically proven to be safe and effective*
- Contains Pharmanex's patented green tea extract, Tēgreen 97®

Who Should Use This Product?

As a dietary supplement, Prostate Formula is intended for adult men desiring greater nutritional support for a healthy prostate*

Did You Know?

- Concerns related to the prostate normally manifest themselves after the age of 40, increasing the need for proper nutrition earlier in life
- More than 75% of prostate concerns are in men over the age of 65
- Free radical attacks to the prostate have made prostate cell function the third most common concern of its type worldwide

Frequently Asked Questions

What is this product intended to do?

An all-natural blend of powerful antioxidants and botanicals, Prostate Formula helps support healthy prostate function, maintain a healthy prostate gland, and provide long-term prostate cell and DNA protection against free radical attacks*.

What ingredients does this product have?

Prostate Formula includes saw palmetto, green tea (Tēgreen 97®), lycopene, and selenium.

How does Prostate Formula work?

Prostate Formula addresses prostate health in two significant ways. First, it helps maintain healthy prostate function and normal urinary flow. This benefit is provided by Prostate Formula's clinically effective dose of standardized saw palmetto extract. Second, it provides long-term protection against free radical attack with its combination of superior-quality antioxidants*.

How is Prostate Formula unique?

Prostate Formula combines the time-honored herb saw palmetto into a unique formula that not only helps maintain healthy prostate function, but also provides long-term protection against free radicals with the addition of antioxidants*.

Prostate Formula

Do I need to take the product continually to see the benefits or can I take it on an as needed basis?

Prostate Formula provides targeted nutrient supplementation to support healthy prostate function and is best if taken on a continual basis. Allow 4 to 6 weeks for noticeable results.

What are the side effects and precautions of Prostate Formula?

There are no known side effects at the recommended dosage. If you are diagnosed with benign prostatic hyperplasia (BPH), are at risk for prostate cancer, have other medical conditions, or are taking prescription medications, please consult a physician before taking this or other dietary supplements.

Are there scientific studies validating this product?

Clinical research indicates that the ingredients in Prostate Formula may help support healthy prostate function and provide long-term prostate cell and DNA protection against free radical damage.*

How are the ingredients in this product standardized?

The constituents in Prostate Formula are standardized through scientific and analytical methods in a sterile environment to ensure that every capsule contains the prescribed level of constituents, every time. Extract of saw palmetto berries are standardized to 85% to 95% free fatty acids and sterols. Other routine testing includes heavy metal content, full microbial testing and residual solvents.

Is there anyone who should not use this product?

This product is not recommended for children. Persons taking prescription medications should consult a physician prior to use.
