

The Difference begins with ME!

IT'S TIME TO MAKE A CHANGE!

When you are young, your skin functions optimally - it appears smooth, firm, and even-toned. However, as you age your skin slowly loses these youthful attributes. The effects of biological aging and environmental damage accumulate and over time your skin's behavior changes - healthy behaviors decrease and aging behaviors increase - leaving you with lines, wrinkles, enlarged pores, and a rough, dull complexion.

Your skin is telling you it's time to make a change. Decide today to look younger with the Nu Skin 180° Anti-Aging Skin Therapy System, Nu Skin's cell renewal specialist. It is clinically proven to refine texture, promote elasticity, even skin tone, and diminish the appearance of fine lines and wrinkles for an overall more youthful appearance. Polyhydroxy acids (PHAs) provide gentle and effective chemical exfoliation, which contributes to more youthful cell renewal (turnover) and is necessary in maintaining healthy skin. This daily use system is powerful enough to produce visible results in just one week.

Getting old is not a scary thing for me because I have found the best solution to make dry, wrinkled, damaged skin look younger. Before, I tried so many different types of facial treatments and skin care products to make my skin younger looking and achieve an even-toned skin but I just got disappointed every time. The results were less than stellar. In fact, it caused me a lot of problems which added to my already damaged skin.

One day, I was lucky to meet a friend, who offered anti-aging skin care products from Nu Skin. At first, I was hesitant because of false promises from my previous experience with other skin care products. I received a professional consultation from one of Nu Skin's Beauty Consultant and had a VISIA Complexion Analysis to better understand my skin condition then I tried Nu Skin 180° Anti-Aging Skin Therapy System.

In just two months of use, the results were phenomenal! My face became brighter, my skin discoloration suddenly disappeared, and my wrinkles diminished. Now, I receive compliments on how I look younger than my actual age.

I really love Nu Skin 180° Anti-Aging Skin Therapy System. It made so much difference for me and family. Thank you Nu Skin!

Yani, 57 years old, Housewife, Indonesia

Description: The system captures digital photos of the face and measures wrinkles, evenness, pores and pigmentation. An individual's skin features are graded relative to others of the same sex, age and ethnicity. A smaller numeric reading indicates an improvement in skin condition.

Disclaimer: Individual results may vary.
