

Start smiling with confidence with Nu Skin AP-24 Oral Care Today!

Apart from all the luxurious clothings, have you not realized that a set of healthy looking smile is the best accessories one could ever wear?

Other than making eating and speech possible, a set of healthy teeth enables you to look and feel good. Poor oral health may be linked to diseases such as cardiovascular diseases (CVD) like heart diseases, clogged arteries, stroke and bacterial endocarditis as the bacteria from gum disease may enter your bloodstream and travel through your arteries to your heart, affecting your cardiovascular system. Your set of teeth may also be the place to reflect the first stage of osteoporosis.

Learn the importance of oral health care from our special invited guest, **Dr. Christopher Quek** and our product specialist, **Miss Evelyn Soh** will also share the benefit and difference of AP-24 Oral Care System!

What you will learn from this workshop:

- (1) Why it is important to maintain a good oral hygiene!
- (2) Benefits of Nu Skin AP-24 Oral Care System and our difference!

Trainers' profile:

Evelyn Soh, Product Specialist

Before joining Nu Skin, Evelyn has worked with various retail cosmetics brands such as Chanel, SK II, etc. She has committed herself to the beauty industry fully upon completion of her diploma studies.

She sees fulfillment in helping individuals attain good skin, which in turn increases their self confidence level.

Dr Christopher Quek, Dental Specialist in Prosthodontics

Dr Quek had completed a 3-year Prosthodontic Residency Programme in the National University of Singapore and was conferred the Master of Dental Surgery (Prosthodontics).

He is currently in private practice and is also an Adjunct Lecturer in the Department of Restorative Dentistry, Faculty of Dentistry, National University of Singapore. He has lectured regionally and has also published in peer-reviewed journals. His areas of interests are in the fields of implant prosthodontics and esthetic dentistry.
