產品創新源於科學發現。

Nu Skin 自成立以來，一直是抗衰老領域的先驅之一。匯聚各個領域的專家組成「全球抗衰老科研顧問團」，Nu Skin 於美國及上海設立了「抗衰老科研中心」，更併購「LifeGen Technologies 美國生命基因科技中心」，專注研究、開發前瞻的抗衰老科技及卓越的產品。

PRODUCT INNOVATION BEGINS WITH SCIENTIFIC INSIGHTS.

Nu Skin has been one of the anti-aging pioneers since its establishment. Bringing together the best minds in various research areas as the “Anti-Aging Scientific Advisory Board”, with “Nu Skin Enterprises Center for Anti-Aging Research” in U.S. and Shanghai, we merged with “LifeGen Technologies” that delicate to researching and developing exclusive anti-aging science and products.

Tru Face® FirmPlex 緊膚科技

Tru Face® FirmPlex

經科學實證，可提升令肌膚看起來更緊緻的關鍵成分，帶來前所未有的緊緻度，輪廓更立體分明。

Scientifically-validated, enhances a key component of firm looking skin, delivers visibly firmer, more contoured, lifted, and defined skin than ever before.

ageLOC® 專有配方

ageLOC® Proprietary Blend

直擊老化根源，煥發年輕光采、減少老化痕跡。

Targets the sources of aging to preserve the look of youth and reduce the appearance of aging.

兩大獨有科技配合乳香樹膠、角鯊烷、抗氧化網絡 (輔酶 Q10、維他命 C 及 E) 等成分，有助加強皮膚的天然屏障，滋潤肌膚、抑制自由基，同時針對色素、細紋和皺紋的根源，讓肌膚維持年輕健康，輪廓更緊緻分明。

Incorporate with the two scientific advancements, the formula also contains Pistacia Lentiscus Gum, Squalane and Antioxidant Network (Ubiquinone, Vitamin C and E) that help to strengthen the skin's natural barrier, moisturize skin, quench free radicals, target the sources of discoloration, lines, wrinkles and supports youthful, healthy skin, resulting in a contoured appearance.
