Sunright® Lip Balm® 15

UVA/UVB protection with technology

Size:

Sunright® 50, 35:
100 ml

Sunright® Lip Balm 15:
4.2 g

PRODUCT OVERVIEW

Now, expect more from your sunscreen products. Excessive sun exposure can lead to unwanted consequences, including premature appearance of the visible signs of ageing on the skin, like lines and wrinkles. Sunright® sun care products combine excellent sun protection. They protect your skin with water-resistant, non-greasy formulas, which offer you a high UVA/UVB protection to help protect from the visible effects of photo ageing. Promote youthful looking skin with Nu Skin® Sunright® products.

During summer it is also important to guard your lips against chapping and protect them from sun damage with the Sunright® Lip Balm 15. This moisturising formula will help your lips look and feel smooth.

TARGET AUDIENCE

Individuals concerned with protecting their skin from the undesirable effects of sun rays. Thanks to the Sunright® 50, 35 and Lip Balm® 15, the entire family has its sun protection solution.*

**Parents should consult a doctor for children under 6 months old before using standard sunscreen on infants. Keep babies and young children out of the direct sunlight.*

PRODUCT BENEFITS

SUNRIGHT® 50 & 35

- Provide high UVA/UVB protection
- Non-greasy, moisturising formulas
- Water –resistant
- Overall improved product experience thanks to:
 - Improved aesthetics
 - Easy to apply thanks to a softer texture, improved sensory

- Formulated to use on face and body

SUNRIGHT® LIP BALM 15

- Moisturising formula
- Provides a SPF 15
- Guards against chapping, protects from sun damage, and helps lips look and feel smooth.

KEY INGREDIENTS

SUNRIGHT® 50 & 35

- **Astaxanthin (haematococcus pluvialis extract)** – helps protect skin from environmental aggressors. This powerful antioxidant helps protect the skin from the visible effects associated with UV exposure.
- **Physalis angulata extract** – helps soothe skin during UV exposure.
- **Aloe vera, bisabolol, and panthenol** – moisturise and soothe the skin.

SUNRIGHT® LIP BALM 15

- **Sunflower oil** – rich emollient for skin softening and moisturisation.
- **Vitamin E (tocopherol and tocopherol acetate)** – provides a moisturizing effect and protect the skin from oxidative stress due to the sun, wind and cold.

USAGE/APPLICATION

SUNRIGHT® 50 & 35

Apply a generous amount to cover all exposed areas. Reducing this quantity will lower the level of protection significantly. Apply evenly on your body 30 minutes before sun and water exposure. Reapply regularly to maintain protection, especially after perspiring, swimming or toweling. Do not stay too long in the sun, even while using a sunscreen product. Keep babies and young children out of direct sunlight. Over-exposure to the sun is a serious health threat.

SUNRIGHT® LIP BALM 15

Apply liberally to lips as often as necessary.

DID YOU KNOW...

The two-finger rule is a great way to make sure you apply the correct amount of sunscreen. Squeeze sunscreen the length of both your middle and index finger, two fingers of sunscreen. You should apply a full two-finger amount to each of the following areas: head, neck, face, left arm, right arm, upper back, lower back, upper front torso, lower front torso, right and left upper leg and right and left lower leg. For optimal efficacy, apply 30 minutes prior to sun exposure. Reapply regularly to maintain protection, especially after perspiring, swimming or toweling.

COMPLEMENTARY PRODUCTS

- **Moisture Restore Day Protective Lotion SPF 15** – contains colourless carotenoids and helps the skin fight against the negative effects associated with sun exposure.

- **Perennial® Intense Body Moisturizer** — a body moisturiser that increases cellular durability, helping to improve the skin's natural defence mechanisms and protect it from external factors that impact the appearance of the skin.
- **Enhancer Skin Conditioning Gel** — helps soothe and nurture the skin with conditioning panthenol and soothing aloe vera.
- **Nu Colour® Advanced Tinted Moisturizer SPF 15 & Nu Colour® Advanced Liquid Finish SPF 15**— provide anti-ageing ingredients while enhancing one's natural skin tone with sheer colour and features UVA/UVB broad spectrum skin protection.

FREQUENTLY ASKED QUESTIONS

Can children use these products?

Adults and children 6 months and older can use the Sunright® sunscreen. Parents should consult a doctor for children under 6 months old before using standard sunscreens on infants.

Do Sunright® products provide UVA and UVB protection?

Yes, Sunright® products provide broad-spectrum protection against UVA and UVB rays. While UV-B radiation is the cause of “sun-burn”, UV-A radiation causes premature skin ageing.

What does SPF stand for?

SPF stands for Sun Protection Factor and is an indication of the amount of protection a product provides against UVB light. An SPF indicates the ability of a sun protection product to filter out UVB rays. The number indicates how much longer you can be exposed to the sun while wearing sunscreen before you begin to burn as opposed to how long it would take you to burn without sunscreen. The time **it takes for someone's skin to burn varies greatly with every individual**; therefore it is important to remember that sunscreen is not a one-size-fits-all science.

Are Sunright® 50 & 35 waterproof?

Sunright® 50 & 35 are water-resistant and allows 80 minutes of uninterrupted water play. This is the maximum amount of time before you need to re-apply.

What is the proper application of a sunscreen?

The two-finger rule is a great way to make sure you apply the correct amount of sunscreen. Squeeze sunscreen the length of both your middle and index finger, two fingers of sunscreen. You should apply a full two-finger amount to each of the following areas: head, neck, face, left arm, right arm, upper back, lower back, upper front torso, lower front torso, right and left upper leg and right and left lower leg. For optimal efficacy, apply 30 minutes prior to sun exposure. Reapply regularly to maintain protection, especially after perspiring, swimming or toweling.

When should I apply sunscreen?

Initially apply your sunscreen to dry skin approximately 30 minutes before going outside. If you are going to be in the sun for longer periods of time, you need to reapply your sunscreen at least every two hours or at least every 80 minutes during water play.

Is it important to always reapply sunscreen?

The first application of the day is the most important and it is crucial to take the time to do it properly. Many things can affect the need to reapply sunscreen. Excessive perspiring, toweling off and swimming all hamper the ability for sunscreen to remain on the skin and make reapplication important. Reapply sunscreen after 80 minutes of swimming or perspiring, immediately after towel drying and at least every two hours.

INGREDIENTS

Sunright® 50

Aqua, Homosalate, Aloe Barbadensis Leaf Juice, Ethylhexyl Methoxycinnamate, Octocrylene, Cyclopentasiloxane, Ethylhexyl Salicylate, Butylene Glycol, Butyl Methoxydibenzoylmethane, Dimethicone/Vinyltrimethylsiloxysilicate Crosspolymer, Glyceryl Stearate, PEG-100 Stearate, Acrylates Copolymer, Caprylyl Glycol, Polyacrylate-13, Cyclohexasiloxane, Physalis Angulata Extract, Caprylic/Capric Triglyceride, Pentylene Glycol, Panthenol, Allantoin, Bisabolol, Safflower Oil Aminopropanediol Esters, Steareth-2, Steareth-21, Cetyl Alcohol, 1,2-Hexanediol, Carbomer, Xanthan Gum, Polyisobutene, Dimethicone/Vinyl Dimethicone Crosspolymer, Polysorbate 20, Sorbitan Isostearate, Aluminum Hydroxide, Hydrated Silica, Disodium EDTA, Aminomethyl Propanol, Citric Acid, Parfum, BHT, Haematococcus Pluvialis Extract, Tocopherol, Chlorphenesin, Phenoxyethanol, CI 77891, Benzyl Benzoate, Benzyl Salicylate, Limonene, Alpha-Isomethyl Ionone, Linalool.
