

Epoch® Deodorant

with Citrisomes

Product Format

Solid deodorant stick in a roll-up applicator tube.

Size

50 g

Product Overview

Featuring patented Citrisomes technology utilising *Citrus aurantium*, a small orange used in the Caribbean as a natural deodoriser, Epoch® Deodorant keeps you feeling fresh all day. This underarm formula also contains grapefruit seed extract for time-released odour control and chamomile extract to soothe skin. Its no-stain formula protects your clothes as it protects you throughout the day.

Target Audience

Men and women seeking a natural, fresh-scented deodorant.

Product Benefits

- Fights body odour throughout the day by utilising patented time-released Citrisomes technology.
- Keeps you feeling fresh and clean with a light, natural scent derived from citrus extracts.
- Soothes delicate underarm area with natural conditioners.
- Glides on clear – will not stain clothing.
- Safety-allergy-dermatologist tested.

Key Ingredients

- **Citrus aurantium** – used by various cultures throughout China and the Caribbean, especially Haiti, as a refreshing, natural deodoriser. Though originating in China, *Citrus aurantium* was introduced into Europe in the eleventh century. The fruit of the *Citrus aurantium* (also known as a Seville orange) became very popular, not only for its delightful sweet-and-sour taste, but also for its refreshing scent and deodorising properties.
- **Grapefruit seed extract** – integrated into Citrisomes to provide time-released, long-lasting freshness. Discovered in the seventeenth century on the Caribbean island of Barbados, the grapefruit tree and its fruit have long been known for their naturally clean, refreshing scent.
- **Chamomile extract** – used for its skin-soothing properties.

Did You Know...

A donation of \$0.25 from each Epoch® product sold goes to the Nu Skin Force for Good Foundation®, a non-profit organisation committed to creating a better world for children by improving human life, continuing indigenous cultures and protecting fragile environments.

Usage/Application

Apply daily to entire underarm. Slowly twist dial on bottom of container to raise deodorant stick. Replace cap after each use.

Complementary Products

- **Epoch® Polishing Bar** – a soap-free, deep cleansing bar for use on your whole body. Helps polish the skin's surface while removing dirt. Use in the shower or bath daily before using Epoch® Deodorant with Citrisomes.
- **Liquid Body Bar** – a soap-free liquid cleanser for use in the shower. Features an aromatic grapefruit scent to revitalise the senses while you wash. Rich humectants help preserve the skin's moisture barrier and keep skin feeling soft and supple. A perfect product to use before Epoch® Deodorant with Citrisomes.
- **Body Bar** – this soap-free body cleansing bar features a light grapefruit scent and gently washes away impurities, leaving skin fresh and clean. Use daily in the shower or bath before applying Epoch® Deodorant with Citrisomes.
- **Body Cleansing Gel** – this specially formulated gel fights odour-causing germs and is enriched with aloe to keep skin soft and comfortable while removing dirt and odour. Use in the shower or bath before using Epoch® Deodorant with Citrisomes.

Epoch® Deodorant

Frequently Asked Questions

What are Citrisomes?

Citrisomes are patented technology featuring a tiny lecithin bubble surrounding an odour-fighting ingredient. These bubbles help keep the ingredient active until needed.

What is the difference between an antiperspirant and a deodorant?

Antiperspirants are designed to fight both odour and wetness while a deodorant targets only odour. Many antiperspirants also contain aluminium ingredients. Epoch® Deodorant with Citrisomes does not contain any aluminium ingredients.

How does Epoch® Deodorant with Citrisomes work?

Citrisomes contain grapefruit extract, a natural odour-fighting ingredient. Throughout the day, Citrisomes “pop,” releasing the grapefruit extract to your skin for all-day odour protection.

Is Epoch® Deodorant with Citrisomes for men or women?

Epoch® Deodorant with Citrisomes is a great odour-fighting product for both men and women.

What causes underarm odour?

Bacteria that are present on the skin thrive on the fatty acids and proteins present in underarm perspiration. Body odour is a by-product of these bacteria.

Will Epoch® Deodorant with Citrisomes stain fabric?

No. The deodorant itself will not stain fabric. However, stains associated with the use of deodorants can still occur. The stains are the result of perspiration mixing with deodorant products.
