CONTENTS
Scientific innovation has established Nu Skin® as a leader in the health and beauty industries. Our proprietary product formulations and technologies enable us to set new industry standards in the sources of ageing, with real solutions that exhibit demonstrable results. Our team of in-house scientists demonstrates our commitment to research and development by collaborating with leading research institutions. These collaborative relationships help us to develop next-generation skin care and nutritional products.

“Nu Skin® is taking the science of the sources of ageing to a completely new level by studying the genetic origins of how and why we age.”

Dr. Joseph Chang, Chief Scientific Officer Executive Vice President Product Development

THE FUTURE OF LOOKING AND FEELING YOUNG

Based on years of unparalleled research in skin and nutritional science, Nu Skin® has ushered in a new era with our exclusive ageLOC® science.

With our exclusive ageLOC® science, you can unlock your youthful potential. The ageLOC® brand is a comprehensive approach – targeting the ultimate sources of ageing to diminish the look and feel of ageing. Get ready to discover the products that will improve different aspects of your life. It’s time to unlock the new you.
Nu Skin® has taken the latest insights of how to impact the visible signs of ageing to a new level. In collaboration with some of the world’s leading anti-ageing researchers, Nu Skin® scientists have identified key groups of genes called age-related super markers or arSuperMarkers, that influence how we seem to age. Nu Skin®’s exclusive ageLOC® science targets these ultimate sources of ageing to develop products that help you look and feel younger.

“Nu Skin® uses gene chip technology to identify functional groups of age-related super markers – what we call Youth Gene Clusters. Our research on Youth Gene Clusters helps us to better understand the mechanism of the visible signs of how we look as we are ageing.”

Helen Knapp, Ph.D., Vice President Global Research & Development

IDENIFYING THE SOURCE

The scientific community has open access to the Human Genome, but Nu Skin®’s breakthrough ageLOC® science gives us the ability to interpret it in a meaningful way. In a recent discovery, Nu Skin®, along with anti-ageing and genetics experts, identified key groups of genes called Youth Gene Clusters. Nu Skin® believes that finding and identifying these functional groups of genes is crucial to addressing the visible signs of ageing at the source.

Clinical study results, genomic analyses and substantiated research have led Nu Skin® scientists to identify genes of which the expression profile shares characteristics associated with youthfulness. The expression of these genes is responsible for the visible signs of ageing on our skin.

REBALANCING YOUTH

Once these key groups of genes have been identified, it is necessary to understand how their activity can reflect a more youthful skin profile. Rebalancing this profile is a subtle process; it is not as simple as turning them all on or off. Some skin markers may need to be turned down and others turned up. Nu Skin®’s proprietary ageLOC® science creates new opportunities to support younger looking skin and body.
FROM THE OUTSIDE IN

Nu Skin® is a leader in the skin care industry with scientifically advanced ingredient technologies and skin beneficial formulas comprised of high quality ingredients. And now, together with ageLOC® science, our skin care products are going a step further by helping to unlock the secret to a younger looking you – today and in the future.
ageLOC® LumiSpa™ is designed to do more than just clean the surface of the skin; it is a 7-in-1 solution for youthful looking skin.

The thoughtful design of ageLOC® LumiSpa™ results in a quick two-minute thorough cleansing that will leave your skin feeling renewed and refreshed, revealing a radiant and youthful looking complexion. Created by Nu Skin and dermatologist tested, ageLOC® LumiSpa™ is inspired by gene expression technology of structural skin protein production. Every ageLOC® LumiSpa™ experience will leave you looking forward to the next one.

ageLOC® LumiSpa™ is a waterproof and rechargeable handheld personal skin care device. Used together with the specially formulated ageLOC® LumiSpa™ Activating Cleansers, it simultaneously changes the appearance, smoothes and cleanses the facial skin.

Clinically Proven Benefits:

• Reduced appearance of pores
• Smoothness
• Softness
• Radiance
• Clarity
• Freshness
• Thoroughly cleansed skin
ageLOC® LumiSpa™ Activating Cleansers

ageLOC® LumiSpa™ features 3 facial cleanser options designed for different skin types: normal/Combo, dry and oily skin. These compelling skin cleansing products are formulated using Nu Skin’s proprietary ageLOC® ingredient blend. Optimally designed to be used together with the ageLOC® LumiSpa™ device, they form a system that joins efficacy and innovation. The ageLOC® LumiSpa™ system offers youthful, healthy-looking skin when used as directed - because after using it, your skin will not only be cleansed but it will also look smooth and soft.

ageLOC® LumiSpa™ Silicone Heads

ageLOC® LumiSpa™ features 2 heads: Normal and Firm. With its soft silicone head, ageLOC® LumiSpa™ moves at the precise frequency needed to exert its beneficial effect on the skin, resulting in smoother, softer skin after the first use. Their gentle, nonabrasive silicone surfaces are hygienic and generally easier to clean than bristle heads commonly found on the market.

ageLOC® LumiSpa™ Normal Silicone Head
- A universal head suitable for most skin types. Its flexible silicone gently glides to wipe away dirt and loose dead skin cells.
- Item No. 97001495

ageLOC® LumiSpa™ Firm Silicone Head
- The firm head offers a more pronounced exfoliating option.
- Item No. 97001496

* Firm Silicone head can be bought separately.

DESCRIPTION OF BENEFITS

ageLOC® ingredients have been shown to protect the skin from oxidative stress by reducing the expression of free radicals associated with the arNOX enzyme. This may help slow down the appearance of skin ageing that may be caused by accelerated free radical production.

arNOX Activity – in vitro experiment

This experiment shows how an in vitro arNOX inhibitor affects arNOX enzyme activity.

Switch on the power to a younger looking you with the ageLOC® Edition Nu Skin Galvanic Spa System® II. Reveal a fresh, soft, luminous complexion; diminish the appearance of lines and wrinkles; increase your hair’s lustrous appearance; and visually reduce the appearance of an orange peel looking skin. Look revitalised, refreshed and younger with unsurpassed results.

NU SKIN CLEAR ACTION® SYSTEM
Clearing beyond the breakout.
Collection of four products: Nu Skin Clear Action® Foaming Cleanser, Nu Skin Clear Action® Toner, Nu Skin Clear Action® Day Treatment and Nu Skin Clear Action® Night Treatment.

NU SKIN CLEAR ACTION® FOAMING CLEANSER
Deep cleaning for silky-smooth results.
Formulated to disrupt the breakout causing union of oil, bacteria and debris, this unique foaming cleanser features salicylic acid to clear pores and reduce most breakouts leaving skin fresh and clean without feeling tight or dry.

NU SKIN CLEAR ACTION® TONER
Keeps your complexion calm and shine free.
This advanced toner soothes angry, red skin and manages oil levels with liquorice extract (soothes irritated skin), ammonia PCA (helps control sebum levels) and a special blend of vitamins C and E (replenishes the natural antioxidant supply that is lost when your skin is fighting breakouts).

NU SKIN CLEAR ACTION® DAY TREATMENT
Multi action for one result - clear skin!
Protects and revitalises your complexion. Mandelic acid reduces the appearance of visible signs of past breakouts as it quickly fades dark spots on the skin’s surface. Salicylic acid works to penetrate pores and dissolve clogs. Combined in a lightweight gel, these two ingredients along with humectants such as gluconolactone help your skin to maintain a regular moisture level. The cool, refreshing mist is also ideal for the body.

NU SKIN CLEAR ACTION® NIGHT TREATMENT
Minimise the visible signs of breakouts while you sleep.
Featuring salicylic acid and retinol to diminish the appearance of visible remnant marks associated with past breakouts, this night time formula helps to deliver a smooth, clear, evenly toned complexion.

LIGHT MOISTURISATION
NAPCA MOISTURIZER
Helps skin hold onto precious moisture.
With vitamin E and the natural humectant NAPCA, this cream penetrates quickly to supplement the skin’s own moisture-binding capacity. The dewy-light after-feel makes this moisturizer ideal for all skin types.

MOISTURE RESTORE INTENSE MOISTURIZER
Maximum moisture for distressed skin.
Richer than Rejuvenating Cream, Moisture Restore addresses the needs of extremely dry skin. Featuring pistachio oil, aloe vera and oxidative stress fighting vitamin E, this rich moisturizer strengthens the skin’s natural lipid barrier to give suppleness and elasticity to dry or flaky skin.

MEDIUM MOISTURISATION
NAPCA MOISTURE MIST
Dewy-fresh skin is just a spray away.
Packed with natural moisturizing ingredients like NAPCA, hyaluronic acid and urea, this oil-free formula helps your skin to maintain a regular moisture level. The cool, refreshing mist is also ideal for the body.

ENHANCER
A natural balancing act to soothe and hydrate.
With conditioning panthenol and soothing aloe vera, Enhancer soothes the skin and limits moisture loss. Use liberally to keep skin comfortable and support its natural moisture balance.

RICH MOISTURISATION
REJUVENATING CREAM
A moisture boost for drier skin types.
Formulated to address the special needs of dry skin, this cream improves your skin’s moisture-binding capabilities with the hydrating power of hyaluronic acid. Daily use not only improves moisture, but also helps to keep dryness from returning.

HYDRATE AND REPLENISH
We all need a moisturiser that is adapted to the special needs of our skin. There are lots of different factors that influence the level of moisturisation it needs; like fluctuating temperature, pollution, etc. Nu Skin® offers a broad range of facial moisturisers from light to rich. These facial moisturisers can be added to your core daily skin regimen to help you achieve the right hydration for a healthier appearance.

MALAWI SEEDS OF HOPE PROJECT
What goes around comes around, because US$0.25 from every Epoch® Baobab Body Butter sale will be donated to the Nu Skin Force for Good Foundation® for the Malawi Seeds of Hope project. Life would be insupportable in some parts of Africa without the baobab tree. One baobab tree can store as much as 120,000 litres of water in its swollen trunk. During the dry season, these living reservoirs provide water and nourishment to the communities that surround them – keeping these communities alive.
The Malawi Seeds of Hope reforestation initiative focuses on planting and conserving trees, including the baobab, in local villages, providing and protecting precious resources for the people of Malawi.

FROM THE INSIDE OUT

In addition to helping you look your best, we are committed to optimising the way you feel. Pharmanex® offers a complete approach, with food supplements formulated to nourish and protect your body. With dedicated scientists and affiliations with scientific institutions around the world, our research and development engine produces innovative products.
LIFEPAK®+
Staying healthy throughout one’s life begins with eating right. There is a growing number of scientific evidence demonstrating the health benefits of specific nutrients. A healthy diet needs to have a balance of macronutrients (fats, proteins and carbohydrates) and micronutrients (vitamins and minerals) to meet the needs for human nutrition.

LifePak®+ will bring you a wide range of vitamins and minerals that will target nine important functions of your body.

LIFEPAK®+
Your foundation for a lifetime of health.

Pharmanex® has created a comprehensive micronutrient supplement that provides the body with beneficial levels of important vitamins and minerals, as well as a complete arsenal of botanicals. LifePak®+ provides health benefits that are substantiated by science.

9 FUNCTIONS IN ONE FORMULA

1. Contribute to normal cognitive function.
2. Contribute to the maintenance of normal skin.
3. Contribute to the protection of cells from oxidative stress.
4. Contribute to the maintenance of normal bones.
5. Contribute to the maintenance of normal vision.
6. Contribute to normal blood clotting.
7. Contribute to the normal function of the immune system.
8. Contribute to normal energy-yielding metabolism.
9. Contribute to the normal thyroid function.

Don’t let your guard down
Your body is constantly exposed to sunlight, pollution and stress that can weaken your skin’s protective barrier. With its advanced formula, LifePak®+ provides vitamin C, which contributes to the protection of cells from oxidative stress.

HOW DO I KNOW MY CAROTENOID LEVELS?

The Pharmanex® BioPhotonic Scanner, developed by scientists at a top American research university, is a unique tool that measures carotenoid levels non-invasively in skin tissues using the long-accepted science of Raman spectroscopy.

By simply placing the palm of your hand in front of the Scanner’s safe, low-energy blue light, you will obtain a reading representing the carotenoid levels in your skin - your Skin Carotenoid Score (SCS) - within seconds.

The BioPhotonic Scanner technology is patented and is a fast and convenient way to determine whether your products, such as LifePak®+ and JVi®, are increasing your Skin Carotenoid Score.

It is the next generation of business innovation being smaller, faster and portable. The S3 was named a 2014 bronze winner from the International Design Excellence Awards (IDEA) and was selected as a winner in the 2015 BIG Innovation Awards. According to BIG, the Scanner empowers users to track improvements to their skin as they make changes to their diet and lifestyle.

Available since April 2014 to all qualified Distributors.

PHARMANEX® S3 BIOPHOTONIC SCANNER

The Pharmanex® BioPhotonic Scanner, developed by scientists at a top American research university, is a unique tool that measures carotenoid levels non-invasively in skin tissues using the long-accepted science of Raman spectroscopy.

By simply placing the palm of your hand in front of the Scanner’s safe, low-energy blue light, you will obtain a reading representing the carotenoid levels in your skin - your Skin Carotenoid Score (SCS) - within seconds.

The BioPhotonic Scanner technology is patented and is a fast and convenient way to determine whether your products, such as LifePak®+ and JVi®, are increasing your Skin Carotenoid Score.

It is the next generation of business innovation being smaller, faster and portable. The S3 was named a 2014 bronze winner from the International Design Excellence Awards (IDEA) and was selected as a winner in the 2015 BIG Innovation Awards. According to BIG, the Scanner empowers users to track improvements to their skin as they make changes to their diet and lifestyle.

Available since April 2014 to all qualified Distributors.

The formula for great skin
Healthy, beautiful looking skin can be a reality for everyone, regardless of age. By following a few simple rules and then caring for your skin with efficacious products, you have the formula for youthful, smooth, healthy-looking skin now and in the future.

APPENDIX 1

Typical skin features

<table>
<thead>
<tr>
<th>AGE GROUP</th>
<th>TYPICAL SKIN FEATURES</th>
<th>TAKE ACTION</th>
<th>RECOMMENDATIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>20’s</td>
<td>Even though your skin is moist, smooth and supple, your skin cell renewal rate is beginning to slow. The result is accumulation of excess dead skin cells that give your complexion a dull appearance.</td>
<td>- Use a cleanser developed to help remove dirt and dead cells to uncover your youthful radiance.</td>
<td>- Pure Cleansing Gel</td>
</tr>
<tr>
<td>30’s</td>
<td>The effects of excessive sun exposure and environmental pollution are beginning to show on your complexion. As structural skin protein production declines, paired with repetitive facial movements, you may notice wrinkles around your eyes, mouth and forehead.</td>
<td>- Keep a cleanser, toner, moisturiser and sunscreen as part of your daily regimen and include a product that increases the cell turnover rate to help stimulate cell renewal and enhance skin’s radiance for a smoother, more youthful looking complexion.</td>
<td>- ageLOC® Gentle Cleanse &amp; Tone, ageLOC® Radiant Day SPF 22, ageLOC® Transforming Night</td>
</tr>
<tr>
<td>40’s</td>
<td>Your skin’s sebum production slows down, resulting in dryer skin. Your skin is more fragile and is beginning to sag. Elasticity is reducing and you may notice deeper wrinkles. In short, your complexion has lost its youthful glow.</td>
<td>- You may benefit from an antioxidant rich cleanser and a hydrating moisturiser.</td>
<td>- ageLOC® Gentle Cleanse &amp; Tone, ageLOC® Radiant Day SPF 22</td>
</tr>
<tr>
<td>50’s+</td>
<td>The pigment cells in your skin may clump together more, creating “age spots”. Your skin has lost much of its firmness and tone and may be drier, tighter and more sensitive. Your skin is thinner and more fragile.</td>
<td>- In addition to cleansing, toning and moisturising, consider a skin brightening regimen to reduce skin discolouration and achieve a more even tone.</td>
<td>- ageLOC® Gentle Cleanse &amp; Tone</td>

Note:
- Only one core system should be used at a time.
- Using multiple products that target cell turnover like hydroxy acids is a duplication and may potentially irritate skin sensitivity. Consult your local Customer Service for detailed product recommendations.
- Only one spa product should be used per sitting.

No matter what your age is, always remember to use a daily sunscreen to help protect your skin from the sun’s harmful rays and include fresh fruits and vegetables in your diet.

The above information is a guide to typical skin features through different ages. Lifestyle, environment and genes all play a part in how your skin looks and feels, so you may find that products suited to your skin’s specific needs may fall under a different age category than your actual age.

**Allspice berry (Pimenta dioica)** - a spice used by the indigenous people of the Central Americas to induce persistent dry skin on the feet.

**Aloe vera (Aloe barbadensis)** - recognised for its soothing and conditioning properties.

**Alpha-hydroxy acid (AHA)** - an acid that exfoliates skin cell turnover, reducing the appearance of fine lines and wrinkles and promoting smoother, cleaner skin.

**Amino acid** - a building block of protein. More than 20 different amino acids are used by the body to manufacture different proteins in muscle, hair, skin, blood and other tissues.

**Antioxidant** - a compound which helps protect from oxidative stress.

**Ap-24** - a patented oral care ingredient that leaves a smooth, clean feeling on the teeth.

**arNOX** - a powerful, free radical generator found on the surface of cells and within the body. arNOX is an age-related enzyme that is believed to contribute as a source of aging skin. arNOX activity levels in the human body have been shown to be associated with a person's youthful appearance.

**arSuperMarkers** - age markers or “arSuperMarkers” is a term Nu Skin® coined that describes components of body chemistry that influence how we age.

**Aскорbic acid** - also known as vitamin C. Vitamin C contributes to the protection of cells from oxidative stress and contributes to normal collagen formation for the normal function of skin.

**Avocado** - high in omega-3 fatty acids and antioxidants. Aids in the absorption of nutrients and contributes to normal collagen formation.

**Auracitnin** - also known as vitamin C. Vitamin C contributes to the protection of cells from oxidative stress and contributes to normal collagen formation for the normal function of skin.

**Aurora pieni extract** - used by Polynesians for their skin benefits.

**B Vitamins** - a family of water soluble vitamins that have many beneficial properties. These include thiamine (vitamin B1), riboflavin (vitamin B2), niacin (vitamin B3), pantothenic acid (vitamin B5), pyridoxine (vitamin B6), biotin (vitamin B7), folate (vitamin B9) and the cobalamins (vitamin B12). B Vitamins are essential for building and maintaining an healthy body. DNA contains the genetic information necessary for building and maintaining an organism. DNA usually exists as a double strand held tightly together, creating a double helix.

**Calcium** - is an essential nutrient for building and maintaining bones and teeth.

**Carotenoid** - a compound which helps protect from oxidative stress.

**Cordyceps sinensis** - a mushroom prized in China and the Caribbean, especially Haiti, as a refreshing, natural deodorant. Though originating in China, Cordyceps sinensis was introduced into Europe in the sixteenth century. The fruit of the Cordyceps sinensis (a small orange called a Sellev orange) became very popular, not only for its delightful sweet and sour taste, but also for its refreshing scent and deodorizing properties.

**Cylindrical terminalis** - Hawaiian ti leaves treasured by indigenous South American cultures for skin benefits.

**DHA (Docosahexaenoic acid)** - is an omega 3 fatty acid that contributes to normal brain function and normal vision. Fish oil is a good source of DHA.

**EPA (Eicosapentaenoic acid)** - is an omega 3 fatty acid. Together with DHA, EPA contributes to the normal function of the heart. Fish oil is a good source of EPA.

**Ethocyn®** - a patented oral care ingredient that leaves a smooth, clean feeling on the teeth.

**Ethnobotanicals** - plants used by indigenous cultures for skin benefits.

**Ginger** - is the most abundant mineral in the body. DNA contains the genetic information necessary for building and maintaining an organism. DNA usually exists as a double strand held tightly together, creating a double helix.

**Hair cortex** gives hair its special qualities such as elasticity and curl. The cortex also contains granules of melanin, the hair’s pigment which is produced when the hair is growing in its follicle.

**Hyaluronic acid** - a protein that provides structure, strength and elasticity to the skin and other tissues throughout the body.

**Keratin** - is the most abundant protein in the human body.

**Lycopene** - a compound which helps protect from oxidative stress.

**MCT (Medium chain triglyceride)** - a type of fat that is digested and absorbed in the liver, rather than in the intestine. MCTs are used as a fuel source by the brain and used by the body as an emulsifier and lubricant.

**MCT** - a highly mineralised and rich with trace elements.

**Nanoparticles** - are sub-microscopic particles that can be used to deliver active ingredients into the skin more effectively.

**Nox** - is an all natural form of a fatty acid treated with alcohol and used by the body as an emulsifier and lubricant.

**Polyphenol** - a compound which helps protect from oxidative stress.

**Radiant Complexion** - the outermost portion of the hair shaft. The Cuticle is the most important structure of the hair shaft. If the cuticle is damaged, the hair can become dry and brittle.

**Stress** - a compound which helps protect from oxidative stress.

**Taxol (Paclitaxel)** - a compound which helps protect from oxidative stress.

**Tocopherol** - a compound which helps protect from oxidative stress.

**Turmeric** - a compound which helps protect from oxidative stress.

**Vitamin A** - a compound which helps protect from oxidative stress.

**Vitamin B1** - a compound which helps protect from oxidative stress.

**Vitamin B2** - a compound which helps protect from oxidative stress.

**Vitamin B3** - a compound which helps protect from oxidative stress.

**Vitamin B6** - a compound which helps protect from oxidative stress.

**Vitamin B7** - a compound which helps protect from oxidative stress.

**Vitamin B9** - a compound which helps protect from oxidative stress.

**Vitamin B12** - a compound which helps protect from oxidative stress.

**Zinc** - a compound which helps protect from oxidative stress.

Zinc PCA - a salicylic acid.
Since 1996, the non-profit Nu Skin Force for Good Foundation® has granted more than US$51 million to life-changing projects to help improve the lives of children around the world. Since Nu Skin® covers all administrative and overhead costs for the foundation, 100% of donations from generous Distributors, and from sales of our unique Epoch® personal care line and nourishing VitaMeal are used directly to improve the health, education and economic opportunity of children. Major projects include:

- Teaching sustainable agriculture in Malawi with the Mtalimanja Village School of Agriculture for Family Independence (SAFI) and Seeds of Hope reforestation initiative.
- Providing schools and education resources to island children through Seacology.
- Funding research to find a cure for the devastating skin disease Epidermolysis Bullosa (EB).

A CULTURE OF GIVING

Nu Skin®’s culture of giving unites the Nu Skin® family of Distributors, customers and employees in innovative humanitarian efforts that multiply the company’s ability to nourish and empower children around the world.
Fortunately, with Nu Skin’s Nourish the Children® initiative, now one serving of VitaMeal is donated to a child in need every second. Nourish the Children® is an innovative business initiative that facilitates ongoing VitaMeal purchases, donations and distribution. This unique social entrepreneurial network of Nu Skin® Distributors and customers results in millions of life-saving meals reaching malnourished children around the world every month.

Nu Skin® scientists collaborated with a leading expert in child malnutrition to develop VitaMeal. One bag of VitaMeal holds 30 child-sized meals – enough to provide the vitamins and nutrients necessary to nourish a child for a month. Since 2002, more than 450 million meals have been donated through the Nourish the Children® initiative.

MAXIMISING YOUR IMPACT

For every VitaMeal 5-pack donation, Nu Skin® also donates one bag of VitaMeal. For all other VitaMeal donations, Nu Skin® matches one bag for every eight bags purchased.

With VitaMeal plants in Malawi and China, the Nourish the Children® initiative is also helping create new jobs and economic opportunities.
