ACTIVATING CLEANSERS

Specifically formulated (and tested) to be paired with your LumiSpa iO, the five ageLOC LumiSpa Activating Cleansers are made with different skin types in mind: Dry, Normal to Combination, Oily, Sensitive, and Blemish Prone. They enable precise cushioning, cleansing, and interaction with the skin, optimising the effectiveness of LumiSpa iO's proprietary Two-Sense Motion action.

HOW TO USE

To get started, pair your LumiSpa iO device with the Nu Skin Vera app on your phone. Once paired, select a pre-loaded routine or create your own on the app!

STEP 1

Wet your face with lukewarm water. Dispense an ample amount (bigger than an almond) of the LumiSpa Activating Cleanser that best suits your skin type onto your hand. Apply evenly to your face. Wet the Silicone Head and turn on your device.

STEP 2

Cleanse with your LumiSpa iO device for two minutes. Glide it slowly across your face in broad strokes. Don't scrub or press too hard. The device will vibrate if you are misusing it. It will pause every 30 seconds. This is your cue to move to another area of your face.

STEP 3

Rinse your face and gently pat it dry. Follow with next steps in your routine. For optimal results, use the ageLOC LumiSpa iO System for two minutes, twice per day.

STEP 4

Remove the Silicone Head from the device. Rinse it with water while rubbing to remove the residual cleanser. Dry thoroughly. Rinse device under water. Wipe the device dry.

STEP 5

SMART IoT FEATURES AND EYE CARE

Thanks to Bluetooth, the device can connect with the Nu Skin Vera app on your phone unlocking features like Intelligent Coaching, Customised Skin Care Routines, Selfie Timeline, Easy Reordering, usage insights, personalised product recommendations, awards, and more!

Complete your routine by caring for the delicate skin beneath and around your eyes. Use ageLOC LumiSpa iO Accent & IdealEyes with your device to exfoliate and invigorate your eye area.

ageLOC Galvanic Spa FACIAL GELS

LOOKING FOR THE SECRET TO YOUTHFUL-LOOKING SKIN? YOU'VE FOUND IT.

DIRECT/GALVANIC MICROCURRENT TECHNOLOGY

Like a set of magnets, the device uses direct currents to support the delivery of key ingredients to the skin. Using different settings, a negative current first moves the negatively charged Pre-Treat Gel to the skin, where it binds to impurities. A positive current then withdraws those impurities, while pushing the positively charged ageLOC ingredients in the Treatment Gel to the epidermis.

BENEFITS

HELP TO VISIBLY REDUCE LINES AND WRINKLES AND REVEAL A FIRMER, MORE LIFTED, CONTOURED, APPEARANCE.

TARGET THE SOURCES OF AGEING TO PRESERVE THE LOOK OF YOUTH AND REDUCE THE APPEARANCE OF AGEING.

REVIVE AND INVIGORATE TIRED, STRESSED SKIN.

HELPS COMBAT THE NEGATIVE EFFECTS OF OXIDATIVE STRESS CAUSED BY ENVIRONMENTAL STRESSORS.

GALVANIC CURRENT SUPPORTS THE SUPPLY OF BENEFICIAL INGREDIENTS TO THE EPIDERMIS.

AGELOC GALVANIC SPA FACIAL GELS

The secret to those amazing benefits? A combination of your device and these key ingredients:

- MARIGOLD AND SEA KELP EXTRACTS (IN THE PRE-TREAT GEL).
- ageLOC INGREDIENTS, ARGININE AND SKIN CONDITIONING AGENTS, GREEN TEA EXTRACT AND JANIA RUBENS EXTRACT (CEA) (IN THE TREATMENT GEL).

HOW TO USE

After cleansing, evenly apply the contents of one vial of Pre-Treat Gel onto the entire face and neck, avoiding eyes, eyelids, and lips.

STEP 1

Push the selection button until the number 1 is lit on the display. This application will take 2 minutes.

STEP 2

Thoroughly wet hands with NaPCA Moisture Mist or water. Hold the device with a damp hand while touching the chrome plate on the back and begin to slowly glide the Conductor head over your skin. Be sure to avoid sensitive areas like your eyes, eyelids, and lips.

STEP 3

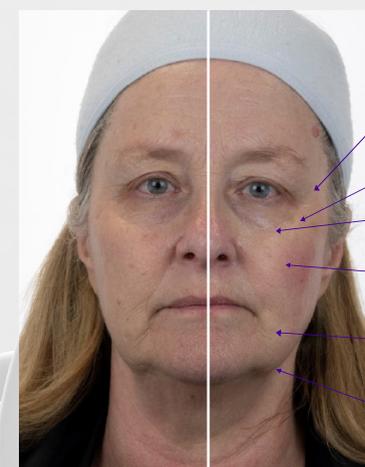

When your galvanic application is over, the device will emit a long beep followed by two short beeps and automatically turn off. Remove any remaining gel from your skin and the device with a damp towel.

STEP 4

Repeat the entire process using a whole vial of ageLOC Treatment Gel and selecting application number 2 on your device. This application will take 3 minutes.
