

Show your eyes some love

Research shows that looking each other in the eyes
brings people closer together. Show your eyes some love
by taking care of the skin around them

Your eyes, your story

Show your eyes some love

They say the eyes are the window to the soul, but the skin around your eyes tells a story, too. Thin and sensitive, it's the first to show signs of ageing and tiredness. What story it tells depends on the love you show it.

Love at first sight

Spending 30 seconds per eye, twice per day, will leave you looking refreshed and wide awake, with skin that looks firmer and lifted, while the appearance of puffiness, dark circles and tired eyes is reduced. In other words – loved. Now that's a story worth telling.

How to use

Gently apply ageLOC LumiSpa IdealEyes to the areas under your eyebrows, corners prone to crow's feet, and beneath your eyes. Massage each eye area for 30 seconds with the ageLOC LumiSpa Accent, twice per day, making sure to switch off your LumiSpa device after 1 minute.
