

TAKE YOUR OWN BEFORE & AFTER PICTURE

What's in it for you? A free ageLOC™ Transformation system if your picture is approved.

It's simple, here are the STEPS to take:

1. Take your "Before" photo (1) — please follow the Photo Guidelines and review the examples for taking an acceptable digital photo below. This is essential!
2. Begin using your product as directed following this usage pattern:
 1. Use ageLOC™ Gentle Cleanse & Tone.
 2. Do an ageLOC™ Galvanic Spa facial treatment with ageLOC™ Facial Gels (2-3 times a week).
 3. Use ageLOC™ Future Serum.
 4. If morning, use ageLOC™ Radiant Day SPF 22.
If evening, use ageLOC™ Transforming Night.
3. Take a 60 day photo (2) 60 days after using the products. Continue using products.
4. Take your 90 day photo (3) — taking care that the location, lighting, etc. matches the other two photos — about 90 Days after using the products. Then email all 3 original photos (untouched), as attachments, along with your name, address, phone number, email, and ID number, to **beforeandafter@nuskin.com**.
5. Photos will be reviewed and evaluated within 30 business days after submission, and if yours are approved for use, you will be notified and sent a free ageLOC Transformation. That's it! (You will also be notified in the event your photos are not legally approved for use. We reserve the right to reject any photos at the company's sole discretion.)

PHOTO GUIDELINES

- Make sure your makeup is very light, or natural.
- Use good, even lighting.
- Make sure your hair is pushed back away from your face.
- Use a neutral solid background.
- Please try to take the photo of just your face.
- Photo must be in high resolution (300 dpi).
- It is essential that all 3 photos have the same lighting and background.
