

MORE BENEFITS. LESS HASSLE.

What if the basic products you use every day could be formulated to incorporate the latest breakthroughs in skin care science and technology? What if you could change the health and vitality of your skin without changing your morning routine?

Presenting **NU SKIN® FOR MEN**—a multifunctional line of products designed to improve the look and feel of your skin without adding a single step.

Each Nu Skin® for Men product contains Tēgreen 97®, a proprietary Pharmanex® product formulated with highly concentrated levels of green tea leaf extract—a potent natural antioxidant.

By including Tēgreen 97®, Nu Skin® for Men products help protect your skin from the free radical damage caused by pollution, alcohol, cigarette smoke, exposure to the elements, and other environmental factors. In a recent study by Stanford University, Tēgreen 97® was shown to make a significant improvement on the skin's elastic tissue content. Additionally, study author Alexa Boer Kimball, M.D., said, "Previous studies with green tea have shown it to be a powerful antioxidant that can help prevent photo damage in the skin." Powerful antioxidant protection is one more way Nu Skin® for Men products incorporate multiple benefits into the products you use every day.

Nu Skin® for Men Package

(Includes one of each Nu Skin® for Men products; Tēgreen 97® capsules not included)

NU SKIN® FOR MEN

Same Routine. More Benefits.™

Cleansing
Exfoliating

Dividends™ Shave Cream

01 101456 200 g (7 oz.)

Cleanse, exfoliate, and condition—while you shave. Mild cleansers clear oil and dirt from pores while the latherless, moisture-rich cream nourishes and protects the skin. For optimal razor glide and more effective exfoliation, Dividends™ Shave Cream hydrates dry skin cells with soothing conditioners such as Tēgreen 97,[®] licorice extract, and bisabolol, resulting in a smooth, healthy look and feel. This unique formula blends multiple ingredients for a deep cleaning that protects your skin from dryness, chafing, minor nicks, and irritation.

Shave-Minimizing
Antioxidant Defense

Dividends™ Aftershave Balm

01 101457 50 ml (1.7 oz.)

Extend the results of your morning shave with Dividends™ Aftershave Balm. This fresh, lightweight balm utilizes LIB (lauryl isoquinolinium bromide) to make facial hair softer, finer, and less noticeable—actually lengthening the results of your morning shave. As the soothing properties of mugwort and safflower oil cool and moisturize to prevent razor bumps, mild exfoliators gently loosen dead skin cells, reducing the potential for ingrown hairs. Give yourself more time away from the razor with the long lasting results of Dividends™ Aftershave Balm.

Odor Neutralizing
Wetness Preventing

Dividends™ Antiperspirant Deodorant

01 101455 75 g (2.6 oz.)

Multiply your defenses against odor, wetness, and underarm irritation. Aluminum zirconium trichlorohydrate GLY decreases the flow of perspiration as odor-binding molecules eliminate existing and future body odor. This unique, microfine formula is absorbed easily and works longer, harder, and more effectively than other products—all while soothing the skin with Tēgreen 97,[®] licorice extract, and bisabolol. By fighting wetness, neutralizing odor, and protecting skin from irritation, Dividends™ Antiperspirant Deodorant gives you a fresh confidence in underarm protection.
