Key Ingredients

- **Baobab Fruit Pulp Extract (adansonia digitata pulp extract)**—a natural humectant and emollient, this moisturizing fruit extract reduces dry skin, improves the skin's appearance, and conditions skin for long-lasting moisturization.
- **Shea Butter**—a rich emollient that enhances the skin's natural barrier functions and increases moisture levels.

- **Macadamia Nut Oil**—high in monounsaturated fatty acids, this moisturizing oil closely resembles sebum (oil naturally produced by the skin for moisture and protection), is easily absorbed by the skin, and helps maintain the skin's water barrier functions.

Usage/Application

Apply liberally all over body, paying special attention to knees, elbows, and any area in need of intense hydration. For external use only.

Testimonials

"Epoch Baobab Body Butter is the only body butter that I have tried that does not leave your hands greasy or sticky. I also like the smell of the Body Butter, especially since it is not overpowering"

—Amy Field

"Epoch Baobab Body Butter protects my hands from the harsh climate and prevents them from becoming cracked and scaly. I love the warm cocoa butter smell!"

—Laura Bates

FYI

What goes around comes around because \$0.25 from every Epoch Baobab Body Butter sale will be donated to the Nu Skin Force for Good Foundation™ for the Malawi Seeds of Hope project. Life would be insupportable in some parts of Africa without the baobab. One tree can store as much as 120 thousand liters of water in its swollen trunk. During the dry season, these living reservoirs provide water and nourishment to the communities that surround them—keeping the communities alive. The Malawi Seeds of Hope reforestation initiative will focus on planting and conserving baobab trees in local villages, providing a precious resource for the people of Malawi. For every Epoch Baobab Body Butter sold, one tree will be planted.
