THE SCIENCE

At Nu Skin, we have a unique understanding of how gene expression affects ADMs. With our superior nutritional and anti-aging knowledge, and our proprietary gene expression research, we are at the forefront of scientific innovation, creating products that target the sources of aging.

By understanding the way genes react to specific ingredients, we have created our MOST ADVANCED YOUTH PRESERVING SUPPLEMENT EVER—ageLOC Youth.

ageLOC Youth promotes positive expression of key groups of genes and delivers enhanced nutritional benefits.*

LIFEGEN TECHNOLOGIES

LifeGen Technologies is focused on genomics as it relates to the aging process.

With over half a billion genetic data points collected and analyzed and more being added everyday, experts study the link between aging and genes. It is LifeGen's mission to discover genetic triggers that slow the aging process.

LifeGen's pioneering research has resulted in several patents and pending patents, and ongoing research is expected to yield further important intellectual property. Additionally, LifeGen has a patent for the use of such "gene expression profiling" as a method to measure the progression of the aging process at the molecular level in individual organs.

WHAT AGES US?

All kinds of external and internal influences can accelerate aging. These aging aggressors disrupt the natural youthful activity of our aging defense mechanisms—the body’s mechanisms that resist aging.

AGING DEFENSE MECHANISMS

Aging defense mechanisms (ADMs) are the body's natural way of fighting off and maintaining resistance to aging aggressors. We are all born with internal ADMs. These mechanisms promote healthy regulation of damage and repair processes. Over time, however, external and internal influences can disrupt the natural youthful activity of these ADMs and accelerate aging effects in the body.

UNIQUE INGREDIENT BLEND

We selected ageLOC Youth's ingredients based on their unique health benefits and ability to positively impact gene expression related to our ADMs.

The result is a powerful blend of ingredients that strengthen and support the body's natural ADMs.

THIS UNIQUE INGREDIENT BLEND IS NOT
READILY AVAILABLE EVEN FROM A
HEALTHY DIET.

Unlike multivitamins and mineral supplements that are focused primarily on filling nutritional gaps, ageLOC Youth provides targeted nutrients that support critical, natural ADMs. The result is an advanced product that delivers systemic youth preservation benefits. Gathered from diets around the world, the ingredient blend in ageLOC Youth is so unique, it is not readily available, even from a healthy diet.
