ageLOC® Edition Galvanic Spa System II

Enjoy the luxury and convenience of spa benefits at home as a regular part of your anti-aging routine and at a fraction of the price of spa treatments—as little as \$8 a session.

The Difference. Demonstrated.

- Boosts visible benefits of ageLOC Future Serum an average of 80% across multiple signs of aging
- Delivers 5 times more ageLOC ingredients to your skin than the Galvanic Spa System I
- Enhances the delivery of key ingredients for up to 24 hours after treatment

Benefits:

- Rejuvenate your complexion for younger looking skin with *ageLOC Galvanic Spa Facial Gels*
- Smooth the appearance of fine lines and wrinkles with *Tru Face Line Corrector*
- Smooth the appearance of cellulite for a firmer, more toned body with *Galvanic Spa II Body Shaping Gel*
- Revitalize your scalp for healthy, abundant looking hair with *Nutriol Hair Fitness Treatment*

Features:

- *NEW*: Redesigned facial treatment head with larger surface area and comfortable contours
- *NEW*: Optimized treatment settings pre-programmed for each product
- *NEW*: Larger, brighter backlit LCD display
- Patented self-adjusting galvanic currents
- Interchangeable treatment heads for face, body, scalp and targeted treatment areas
- Hand-held and portable

How it works:

- Galvanic spa treatments operate on the simple principle that like charges repel and opposites attract. The ageLOC Edition Galvanic Spa System II is an at-home use spa instrument that uses the same principle to enhance delivery of charged ingredients to the skin
- A two-step facial uses the ageLOC Galvanic Spa Facial Gels. Impurities that bind to the negatively charged Pre-Treat Gel can be drawn from the skin during the positively charged Treatment cycle
- Use the four interchangeable heads on the ageLOC Galvanic Spa for face, body, scalp and targeted treatment areas
- Select the optimized treatment setting that is pre-programmed with the correct polarity and time to match the Galvanic Spa product you are using

Price and Availability:
