To Whom It May Concern:

As part of the Informed-Choice registration process, the above manufacturer has submitted samples of the product 'ageLOC Vitality' for prohibited substance analysis. Samples from three production batches have been analysed for a range of prohibited steroids and stimulants as detailed within HFL Service Level Agreement: Nutritional Supplement V1.2. None of the compounds included within the screening process were observed above the reporting levels / method capability levels specified for the programme.

Samples from the following production batches were submitted for analysis:

ageLOC Vitality Bn: CS21401  
ageLOC Vitality Bn: CS21601  
ageLOC Vitality Bn: CS24602

Registration onto the Informed Choice programme also includes an assessment of manufacturing procedures by way of a comprehensive product assessment questionnaire. A review of information supplied by the manufacturer is currently being performed.

Additional information relating to the Informed Choice registration process can be found on the following web site: [www.informed-choice.org](http://www.informed-choice.org)
