Molly Wanner, M.D., M.B.A., is a board-certified dermatologist who specializes in laser and cosmetic dermatology at Massachusetts General Hospital and is an instructor in dermatology at Harvard Medical School. Dr. Wanner is currently conducting clinical and basic science research in the areas of cosmetic and laser dermatology. Her research interests include topical cosmetic products, fat and cellulite, and laser and cosmetic devices.

Dr. Wanner has presented nationally and authored multiple articles in publications such as *Dermatologic Surgery*, *Lasers in Surgery and Medicine*, and *Journal of the American Academy of Dermatology*. She serves on task forces for the American Academy of Dermatology, the American Society of Dermatologic Surgery, and the Women's Dermatologic Society. Dr. Wanner also contributes to popular consumer media and has been quoted in outlets such as *The New York Times*, *Cosmetic Surgery Times*, and *Allure* magazine.

Dr. Wanner began her academic studies at Amherst College and graduated Magna Cum Laude with a Bachelor of Science degree in economics. She then attended Columbia University and graduated Alpha Omega Alpha from the medical school and Beta Gamma Sigma from the business school. At Columbia, she received the American Medical Women's Association (AMWA) achievement citation and the F. Lowenfish Prize for dermatology research. She completed her residency training in dermatology at Columbia University Medical Center and served as Chief Resident. She was a fellow in laser and cosmetic dermatology at the Massachusetts General Hospital and Wellman Center for Photomedicine.
