KATRINA JASA

NEW CIRCLE OF EXCELLENCE I

Rona graduated from UP and began working for a local bank. Eventually, she was led to Nu Skin and realized that its amazing platform and products can be a life-changing opportunity for her. She was hesitant at first, but she took the risk and gave it a shot.

Her initial goal was simply to get an iPod mini. She had no idea that after about a year, she would earn a very generous supplemental income because of the time, effort, and hard work she was able to commit. Who knew that a business she started with a little help from her parents would grow so much and now span in multiple countries around the world.

Nu Skin has given her an opportunity to provide for her family and has given her flexible time, allowing her to create wonderful memories with those she cares about. It provided opportunities for her family to start other businesses, creating many jobs in the community.

“To my Daddy Rodel, Mommy Alona, Madel, Maan, and Michelle, who are among my biggest supporters and braved the seas of entrepreneurship with me through and through, thank you.”

“To my mentors who helped shape me, gave me wings, and allowed me to soar, thank you.”

“To my partners, whose trust became my fuel for the grind, thank you.”

“To my Nu Skin corporate family and staff, whose passion for their jobs and developing amazing products made running a business a breeze, thank you.”

She would always remind her team to keep fighting, even when things were difficult. She is a firm believer in having fun while making a positive difference. That you can be accountable while also being available to your friends and family.

“This milestone is my sweet gift for my Mommy Alona in heaven, and it was only possible because of God’s grace and guidance throughout.”
