SYSTEM STEPS

Step One—Take Your First Step Toward Customization
Order your ageLOC Me Skin Care System online or from a distributor to start using ageLOC Me right away and take your first step toward customization. The system contains your Calibration Set, your initial set of ageLOC Me products. Use these products for two weeks to experience how they feel and how they benefit your skin. Then, use them as a reference when you take your

ageLOC Me skin assessment to further customize your regimen.

Step Two—Tell Us About You

Together with your Calibration Set experience, the ageLOC Me skin assessment helps you determine your skin care needs through a series of questions concerning your environment, region, individual skin attributes, personal aging concerns, and preference for light or heavy moisturizer feel. Like fragrance in your moisturizers? You can choose to include it. You can also include or omit SPF from Day Moisturizer. And you can dial in targeted benefits with the serums to best fit you. At the end of the assessment, you'll receive your personal skin care code.

Step Three—Experience Your Customized Skin Care Regimen

Order your Custom Product Set using your personal skin care code. You told us about you, your skin, and your preferences and, using our expertise in anti-aging science innovation, we created a regimen that's just for you. As soon as your Calibration Set cartridges are empty, you can start using your Custom Product Set right away. Like the Calibration Set, your customized set contains a one-month supply of three serums and a day and night moisturizer. The powerful ageLOC Me serums and moisturizers are Nu Skin's most sophisticated anti-aging skin care formulations to date.

Step Four—Keep It or Change It Up

Retake the ageLOC Me skin assessment as many times as you like. You may find just the right combination for spring and summer, and then want to refine for fall and winter. There's no limit to how many times you can take the assessment.

AGELOC ME PRODUCTS

- ageLOC Me Serums (3)—maximize your anti-aging treatment by the power of three to improve the visible signs of aging—lines and wrinkles, uneven skin tone, and rough, dull skin—resulting in a noticeably healthier, younger looking you.
- ageLOC Me Day Moisturizer—the perfect way to start your day, Day Moisturizer provides hydration to strengthen and maintain the skin's natural moisture barrier, helping protect throughout the day.
- ageLOC Me Night Moisturizer—specifically formulated to rejuvenate as you sleep, Night Moisturizer calms and soothes the skin while aiding the natural nighttime recovery process.

FREQUENTLY ASKED QUESTIONS

How is ageLOC Me different from other custom skin care systems on the market?

Nu Skin has redefined skin care with ageLOC Me, an entirely new, innovative, and sophisticated approach to anti-aging skin care. With ageLOC Me, you are able to:

- Experience your ageLOC Me using your Calibration Set, five products designed to deliver comprehensive anti-aging benefits and provide a reference as you take your skin assessment.

- Take the ageLOC Me skin assessment to create your customized regimen.
- Create a customized anti-aging skin care regimen featuring proprietary ageLOC technology to target the sources of aging.
- Use the smart, convenient, and intuitive ageLOC Me device to receive precise doses of serums and moisturizers every day and night.
- Create new skin care habits and increase the effectiveness of your products through consistent and regular use.

What is included in the ageLOC Me Skin Care System?

The ageLOC Me Skin Care System contains the ageLOC Me device, the Calibration Set consisting of five product cartridges (three serums, a day moisturizer, and a night moisturizer), the ageLOC Me Connector, the Serum Cartridge holder, a convenient travel container, four premium AA batteries, the ageLOC Me Getting Started Guide, and the ageLOC Me User Manual.

Why is the ageLOC Me skin assessment necessary?

The skin assessment is the first step in customizing and fine-tuning your skin care regimen. Using the assessment

and Calibration Set, you can identify a personal regimen for your specific skin care needs based on your lifestyle, location, skin type, and preferences.

What is the difference between ageLOC Me and ageLOC Transformation?

ageLOC Me is a skin care regimen that is customized to the individual and provides the ability to create numerous product combinations based on individual preferences and needs. ageLOC Transformation is one effective anti-aging regimen for most users. Both product lines are formulated with ageLOC technology to target the sources of aging and preserve the look of youth. With ageLOC Me, you can choose to include fragrance in your moisturizers and SPF in your Day Moisturizer and choose from a variety of treatment product options. ageLOC Transformation offers one treatment product option, moisturizers are fragranced, and ageLOC Radiant Day lotion automatically contains SPF. ageLOC Me offers options for moisturizers based on your preference for light or heavy moisturization, whereas ageLOC Transformation includes rich day and night moisturizers.

YOUR TWICE-DAILY AGELOC ME REGIMEN

AGELOC® ME AND AGELOC GALVANIC SPA

Use ageLOC Galvanic Spa two to three times weekly. ageLOC Me is a perfect daily use system that complements your Galvanic Spa routine. Both products use cutting-edge science and, when used together, provide powerful results for your skin and your Nu Skin business.

You may use the ageLOC Galvanic Spa up to three times a week as directed after cleansing and toning, right before applying your ageLOC Me Serum.
