Treatment Heads—ageLOC® LumiSpa™ features two treatment heads: NORMAL and FIRM.

Their gentle, nonabrasive silicone surfaces contain antimicrobial silver and are more hygienic than brushes commonly used with skin care devices. Their sophisticated design helps to maximize product efficacy while making skin more receptive to subsequent products applied to the skin.

These powerful products are formulated using Nu Skin's proprietary ageLOC® ingredient blend. Optimally designed for LumiSpa™, they are proven to maximize the skin perfecting and cleansing benefits of the device—revealing healthy, bright, youthful looking skin.
