

NAPCA MOISTURE MIST

Experience the innovations that sparked Nu Skin's beginning. These timeless skin care solutions are backed by 30 years of expertise and easily fit into any beauty routine to deliver healthy looking skin.

MEET NAPCA MOISTURE MIST

Fall in love with your skin again. The natural, moisture-binding ingredients, like sodium PCA and hyaluronic acid, in Nu Skin® NaPCA Moisture Mist keep your skin feeling supple and smooth. Plus, by retaining the water already in your skin and attracting moisture from the atmosphere, you're blissfully protected from the damaging effects of your environment. And the cool, refreshing mist is also ideal for your body and hair—because love is meant to be shared.

WHY YOU'LL LOVE IT

- Supports the skin's natural ability to hold moisture.
- Increases moisture level, making skin feel supple and smooth and hair feel silky soft.
- Protects against the damaging, drying effects of wind, pollution, and other environmental influences.
- Beautifully sets makeup with just a light spritz.
- Fragrance-free.
- Safety-dermatologist tested.

WHAT POWERS IT

- **Sodium PCA**—a powerful humectant that binds water to the skin to help maintain an optimal moisture level.
- **Hyaluronic Acid**—a moisturizing compound found naturally in the skin; selected for its capability to bind moisture to the skin's surface.

HOW TO USE IT

Spray generously on face, hair, and body whenever you need a refreshing moisture boost.

TRY THESE WITH IT

- NaPCA Moisturizer
- Nutricentials® Polishing Peel

LEARN MORE ABOUT IT

What is NaPCA?

NaPCA stands for sodium pyrolidone carboxylic acid and is a powerful humectant that binds water to the skin. How? NaPCA is a component of skin that helps it retain moisture. Cosmetic NaPCA is a great humectant that helps absorb water effectively on the skin and is free of perfumes and dyes. Plus, it has been shown to be as mild to the skin as water.

What's so great about NaPCA?

Although NaPCA is abundant in human skin, the cold, wind, and heat often dry your skin, giving it a flaky, rough feeling. By applying products with ingredients such as NaPCA, you can help guard against these negative environmental factors.

Which skin type should use NaPCA Moisture Mist?

All skin types love Moisture Mist. It's light enough for oily skin with a hydration boost for dry skin.

How does NaPCA Moisture Mist compare to other Nu Skin moisturizers?

MOISTURIZER COMPARISON RICH < - - - LIGHT	NaPCA Moisture Mist • Refreshes skin with instant moisture. • NaPCA and hyaluronic acid bind moisture to the skin.
	Enhancer Skin Conditioning Gel • A light hydrator. • Panthenol and aloe vera condition and soothe skin while preventing moisture loss.
	NaPCA Moisturizer • Medium weight moisturizer that provides balanced moisturization. • Vitamin E and the natural humectant NaPCA supplement skin's own moisture-binding capacity.
	Rejuvenating Cream • Rich moisturizer formulated to address the special needs of dry skin. • Hyaluronic acid improves skin's moisture-binding capabilities.

NAPCA MOISTURE MIST

Is it okay to store NaPCA Moisture Mist in the refrigerator?

Yes! Storing NaPCA Moisture Mist in the refrigerator during the summer is a great way to have a cool, refreshing experience anytime.
