

SUNRIGHT® SOLAR SCREEN MINERAL FACE SUNSCREEN

Expect more from your sun products. Sunright sunscreen helps you look great as you enjoy your time in the sun. For better sun protection products, trust Sunright for the right formulas with the right benefits for your days in the rays.

MEET SUNRIGHT SOLAR SCREEN MINERAL FACE SUNSCREEN

Find your sun day fun day solution with Sunright Solar Screen Mineral Face Sunscreen—your ultimate sunscreen companion. Formulated with all skin types in mind, this mineral sunscreen absorbs instantly and leaves a sheer finish, free from any undesirable white residue.

Formulated to suit all skin types, this mineral sunscreen offers antioxidant-rich, hydrating protection with SPF50+ and PA++++ against harmful UV rays. Moreover, the fragrance-free formulation is water-resistant and dries transparently, eliminating concerns about any visible white residue. The magic lies in Bisabolol for light hydration, Vitamin E for antioxidant defense against skin-damaging free radicals, and Zinc Oxide for broad-spectrum protection from both UVA and UVB rays. But wait, there's more—these potent ingredients also provide blue light protection. Now, whether you're out and about or indoors, you can safeguard your skin! Apply, relax, and enjoy the day!

WHY YOU'LL LOVE IT

- Offers bluelight protection.
- A mineral sunscreen formulated with Zinc Oxide.
- Leaves zero white residue.
- Provides UVA/UVB protection with SPF50+ PA++++.
- Absorbs instantly, applies effortlessly, and it is non-comedogenic.
- Water resistant up to 80 minutes.
- Hydrates skin.
- Non-comedogenic formula.
- Contains Vitamin E that provides antioxidant protection to help fight skin-damaging free radicals.

- Fragrance-free.
- Perfect for kids and adults (refer to a doctor for children under 6 months).
- Safety-Dermatology tested.
- Tube made from 36% recycled material.

WHAT POWERS IT

- **Zinc Oxide**—mineral sunscreen that provides broad-spectrum protection from both UVA & UVB rays.
- **Bisabolol**—provides lightweight hydration.
- **Vitamin E (Tocopherol & Tocopherly Acetate)**—provides antioxidant benefits to help combat free-radical damage.

HOW TO USE IT

Apply a generous amount over face and neck at least 20 minutes before sun exposure. Reapply after 80 minutes of swimming or sweating, immediately after towel drying, at least every two hours. Use as the last step in your skincare routine.

TRY THESE WITH IT:

- NaPCA Moisturizer
- Enhancer Skin Conditioning Gel
- Rejuvenating Cream

LEARN MORE ABOUT IT

What makes Sunright Solar Screen Mineral Face Sunscreen different from other sunscreens?

Thanks to its Zinc Oxide formula, Sunright Solar Screen Mineral Face Sunscreen stands out by providing broad spectrum sun protection from both UVA and UVB rays. What sets it apart is its blend of moisturizing and skin-soothing ingredients, enriched with antioxidants, which protect your skin from harmful environmental stressors.

SUNRIGHT® SOLAR SCREEN MINERAL FACE SUNSCREEN

Is Sunright Solar Screen Mineral Face Sunscreen water-resistant?

Sunright Solar Screen Mineral Face Sunscreen is water-resistant for up to 80 minutes of uninterrupted fun in the water. This is the maximum amount of time you can go before you need to reapply.

How often should I apply sunscreen?

If you are going to be in the sun for longer periods of time, you'll need to reapply your sunscreen at least every two hours, or at least every 80 minutes if you're sweating or getting wet, and immediately after towel drying.

What does SPF stand for?

SPF stands for Sun Protection Factor. This number is linked to how long you can be exposed to the sun while wearing the sunscreen and still be protected. But the time it takes for someone's skin to burn varies greatly by individual, so it is important to remember that sunscreen is not a one-size-fits-all science.

What does PA++++ stand for?

PA++++ is a rating system used to indicate the level of protection against UVA rays provided by sunscreen products. The more plus signs (up to four), the higher the level of protection. For Sunright Solar Screen Mineral Face Sunscreen, our PA++++ rating signifies the highest level of UVA protection available, offering superior defense against premature aging, sunspots, and other signs of sun damage. Rest assured, our sunscreen is formulated to safeguard your skin effectively against both UVA and UVB rays, ensuring comprehensive sun protection for your daily fun in the sun.
