

NU SKIN'S FIRMING SPECIALIST TARGETS THE SOURCE OF AGEING

Starting today, you are in control of how you look.

Now you can change the way your skin ages and embrace the look of youth with ageLOC® TruFace® Essence Ultra. Formulated with the power of Ethocyn®, Nu Skin's firming specialist now also employs revolutionary ageLOC® science, targeting the sources of ageing that lead to the loss of firmness. Leave undefined skin in the past and enjoy firmer, younger looking skin today and in the future with ageLOC® TruFace® Essence Ultra.

"I was lucky enough to be given the NEW ageLOC Tru Face Essence Ultra to trial for 3 months and I noticed so many benefits in this product.

The first thing I noticed that the serum is less greasy than the current TFEU (which is great for us particularly in the summer months with the humidity) and spreads easier so it goes much further than it did before.

It is how my skin feels when using the product that I LOVE the most. My skin is as soft as a baby's bottom and the jowls that use to flop around on a windy day are a thing of the past, the firmness of my jaw line and the neck is what I enjoy and wanted most!

Every day someone compliments me on my skin and tells me how lucky I am! Luck nothing—I found the best products in the world with Nu Skin and I have reset my genes using technology that I don't understand, but who cares, the results speak for themselves. ageLOC TFEU is another Nu Skin product that I will not go without! Thank you Nu Skin for continually enhancing the product range so that we can look and live younger."

PRIMARY BENEFITS AND FEATURES

- ageLOC® Tru Face® Essence Ultra is formulated with ageLOC® technology, targeting the sources of ageing related to firmness to preserve the look of youth.
- Promotes skin firmness and elasticity with Ethocyn®, an ingredient clinically proven to build elastin fibre content to levels typically found in 18-25 year old skin.
- Helps contour and firm the skin for a more youthful appearance.
- Defines skin around the eyes, neck, chin, jawline, décolleté, and hands.
- Helps protect the skin from oxidising free radical damage and skin proteins from degradation enzymes.
