

# AGELOC® TRU FACE® ESSENCE ULTRA

## Frequently Asked Questions

### HOW IS AGELOC® TRU FACE® ESSENCE ULTRA DIFFERENT FROM TRU FACE® ESSENCE ULTRA?

The new ageLOC Tru Face Essence Ultra still features Ethocyn®, an ingredient shown to increase elastin and firm the skin. Now it is also formulated with revolutionary ageLOC technology. Using exclusive ageLOC science, Nu Skin has identified the Youth Gene Cluster (YGC) related specifically to firmness, so that now we can target and reset this YGC. Now you get all the benefits of Ethocyn plus the benefits of ageLOC.

### HOW DOES AGELOC® TRU FACE® ESSENCE ULTRA WORK?

ageLOC Tru Face Essence Ultra features Ethocyn, which works naturally with the skin to help improve skin elastin content. Elastin provides elasticity to skin and improves skin firmness and contouring. ageLOC Tru Face Essence Ultra now also features ageLOC science. Nu Skin scientists have identified a firming YGC, and with ageLOC science, we know how to target and reset the sources of ageing related to firmness toward a more youthful profile.

### WHAT IS THE PURPOSE OF THE ANTIOXIDANT NETWORK IN AGELOC® TRU FACE® ESSENCE ULTRA?

This network consists of a powerful combination of antioxidants, including Tegreen 97,® coenzyme Q10 (CoQ10), vitamin E, colorless carotenoids, and a special lipid soluble form of vitamin C. Natural lipophilic antioxidants act synergistically to protect sebum lipids. For example, CoQ10 regenerates vitamin E after free radical scavenging, acting as an antioxidant defense system. By providing a network of antioxidants, the protective function against free radicals is not only enhanced, but the key ingredients are also more available to perform other functions that can benefit the skin.

### HOW LONG DO I NEED TO USE AGELOC® TRU FACE® ESSENCE ULTRA TO GET RESULTS?

For best results, use ageLOC Tru Face Essence Ultra twice a day for three months. We recommend continuing use to maintain results.

### HOW DO I USE AGELOC® TRU FACE® ESSENCE ULTRA WITH OTHER NU SKIN® CORE SYSTEMS?

ageLOC Tru Face Essence Ultra is Nu Skin's firming specialist and is an excellent complement to ageLOC® Transformation, the Nu Skin 180® System, and Nutricentials®.

## HOW DOES AGELOC® TRU FACE® ESSENCE ULTRA DIFFER FROM OTHER TRU FACE® PRODUCTS?

Each Tru Face product has a specific purpose and function. ageLOC Tru Face Essence Ultra, the firming specialist, helps improve skin contouring and firmness and also targets the sources of ageing with ageLOC. Tru Face® Line Corrector is a spot treatment that helps minimise the appearance of lines and wrinkles. Tru Face® Skin Perfecting Gel helps prevent the effects of environmental ageing and is a great way to keep skin looking young. Tru Face® Revealing Gel smooths the skin, minimises the appearance of pores, and brightens sallow, dull complexions—without irritation. ageLOC Tru Face Essence Ultra is compatible with each of these products.

## CAN I USE AGELOC® TRU FACE® ESSENCE ULTRA WITH THE AGELOC GALVANIC SPA® SYSTEM II?

ageLOC Tru Face Essence Ultra is not a galvanic-compatible product and should not be used directly with galvanic currents. However, based on carefully controlled research,\* studies reveal that galvanic treatments of five minutes may enhance the delivery of key ingredients for up to 24 hours. Therefore, we recommend using ageLOC Tru Face Essence Ultra after you complete your galvanic treatment for optimum results.

\* The results show the impact of using quality skin care products in combination with the galvanic currents. Research studies were conducted at the University of Oklahoma in 2006, using a laboratory galvanic instrument. Your results with the Galvanic Spa System II may vary.

## HOW IS AGELOC® TRU FACE® ESSENCE ULTRA DIFFERENT FROM AGELOC® FUTURE SERUM?

ageLOC Tru Face Essence Ultra is Nu Skin's "firming specialist," a targeted anti-ageing product featuring Ethocyn®, an ingredient shown to increase elastin and firm the skin. Now it is also formulated with revolutionary ageLOC technology. Using exclusive ageLOC science, Nu Skin has identified the Youth Gene Cluster (YGC) related specifically to firmness, so that now we can target and reset this YGC toward a more youthful gene expression profile. ageLOC Future Serum is a broad spectrum anti-ageing product that targets multiple signs of ageing. For comprehensive anti-ageing benefits and targeted firming benefits, these products can be used in combination.
