How does Moisturizing Shampoo strengthen the cortex?

Consisting of rare oligosaccharides, cotton bloom extract safely enters the cortex without damaging the cuticle to protect and strengthen the keratin fibres—the major component of the hair fibre.

What makes Moisturizing Shampoo more hydrating than the other Nu Skin Hair Care shampoos?

While each Nu Skin Hair Care shampoo contains cotton bloom extract with its moisturising oligosaccharides, Moisturizing Shampoo also contains shea butter. Shea butter fills in the cracks found on dry cuticles and mimics the hair's natural lipids.
