OF LOOKING YOUNGER

IDENTIFY AND TARGET THE ULTIMATE SOURCES OF AGING

Nu Skin is taking the science of anti-aging to a completely new level by studying the genetic origins of how and why we age. The scientific community has access to the Human Genome, but Nu Skin's breakthrough ageLOC Science gives us the ability to interpret it in a meaningful way. Nu Skin, in collaboration with anti-aging and genetic experts, has identified critical Youth Gene Clusters (YGCs) which are key groups or functional clusters of genes that help influence how we age. Nu Skin believes that finding and identifying these functional groups of genes is the key to address aging at its source.

ageLOC is the secret of youth that **TARGETS** the ultimate sources of aging.

Only Nu Skin can **IDENTIFY** critical arSuperMArkers called Youth Gene Clusters (YGCs).

ageLOC delivers proprietary solutions that **REGULATE** your Youth Gene Clusters (YGCs) to reverse the signs of aging and preserve youth.

A UNIQUE SKIN CARE EXPERIENCE

Imagine anti-aging skin care as individual as you are. Now it can be with state-of-the-art technology and breakthrough anti-aging formulations. Nu Skin has redefined skin care with ageLOC Me®, an entirely new approach to anti-aging.

ageLOC Me is inspired by more than 30 years of genetic research. Created to directly answer your individual needs, it is a device delivering effective anti-aging products, a day and night moisturizer and an individual serum combination of three serum products – customized only for you.

ageLOC Me Day

The perfect way to start your day. ageLOC Me Day moisturizer provides hydration to strengthen and maintain the skin's natural moisture barrier. You can customize it to include fragrance and Sun Protection Factor (SPF).

ageLOC Me Night

ageLOC Me Night moisturizer is specially formulated to hydrate and rejuvenate your skin as you sleep. It soothes skin while aiding the natural night-time recovery process.

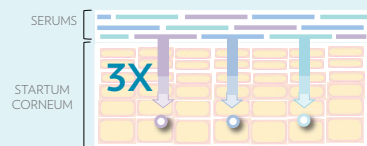

ageLOC Me Serums +

The serums come in three separate cartridges and work together to improve the appearance of the visible signs of aging. The unique technology enables the delivery of more active ingredients in one step. The ageLOC Me device weaves the customized serums together into 40 layers using 'Microlayering Technology' to evenly distribute key ingredients, optimizing the serum combination and resulting in increased absorption of formulations into the skin.

POWERFUL TECHNOLOGY BEHIND ageLOC Me

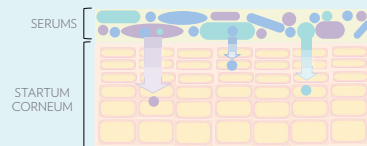

3x more absorption into skin and more actives distributed evenly into the skin for better results

1 STEP, 2 MINUTES, 7 SKIN CARE BENEFITS

The first-of-its-kind, dual-action skin care system in history, ageLOC LumiSpa renews and deep-cleanses skin in just one step. And it takes only two minutes to complete your treatment. ageLOC LumiSpa is the first and only device to feature the patent-pending Micropulse Oscillation Technology which provides precise, cushioned cleansing that is gentle enough to remove impurities, make up, dirt and toxins without irritating the skin.

DUAL-ACTION FACIAL TREATMENT DELIVERS 7 SKIN CARE BENEFITS

- 1 Skin renewal**
- 2 Skin smoothness**
- 3 Increased radiance**
- 4 Refreshed skin**
- 5 Purified skin**
- 6 Minimized appearance of pores**
- 7 Increased appearance of volume and density**

Sweeps away rough skin

Increase cell turnover

Stimulates tired skin

Removes daily grime, pollution, oil & makeup

Micropulse Oscillation Technology pumps pores for improved cleansing extraction

SILICONE TREATMENT HEADS THAT WON'T DAMAGE YOUR SKIN

ageLOC LumiSpa features two soft silicone heads (normal & firm) with antimicrobial silver are more hygienic and easier to clean. Silicone has just the right firmness to benefit your skin, and the antimicrobial silver helps prevent bacteria from building up over time.

- ☐ Two types: normal & firm
- ☐ Easier to clean
- ☐ Gentle & non-abrasive
- ☐ More hygienic with antimicrobial silver
- ☐ Exfoliate evenly
- ☐ Won't pull facial hair

ACTIVATING CLEANSERS BASED ON YOUR SKIN TYPE

Designed for different skin types, the ageLOC LumiSpa Activating Cleansers are formulated using Nu Skin's proprietary, all natural ageLOC ingredient blend that capture liberated pollutants, impurities and oils to be rinsed away. The carefully formulated cushioning layer ensures stimulating massaging treatment experience with the ageLOC LumiSpa.

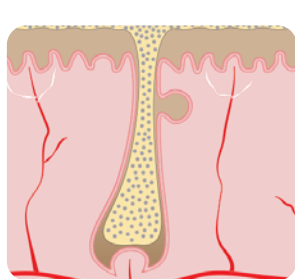

MICROPULSE OSCILLATING TECHNOLOGY

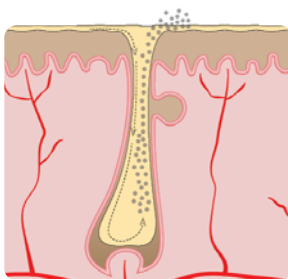

ageLOC LumiSpa is a truly innovative product that offers real results and saves you time by treating and cleansing your skin at the same time.

Featuring the proprietary Micropulse Oscillation Technology with its precise motion and frequency, it helps to stimulate the skin for more effectiveness in treatment and cleansing.

TREATMENT & CLEANSING

The wiping action opens the pores, allowing the cleanser to emulsify with oils within the pores.

The treatment head movement creates a massaging action that refreshes the cleanser within the pores, taking with it the debris and oils.

ageLOC GALVANIC SPA SYSTEM II

A Revolutionary At-Home Spa System

Small, smart and powerful, the ageLOC Galvanic Spa is a multitasking wonder. It features patented self-adjusting currents and interchangeable conductors for the face, scalp, and body. - ☐ Proven to boost the visible benefits of ageLOC Me Serums by an average of 80%.
- ☐ Has a larger, brighter display, intuitive usability and enhanced ergonomics.
- ☐ Has patented self-adjusting galvanic currents and four interchangeable conductors.
- ☐ Enhances delivery of anti-aging ingredients for up to 24 hours.

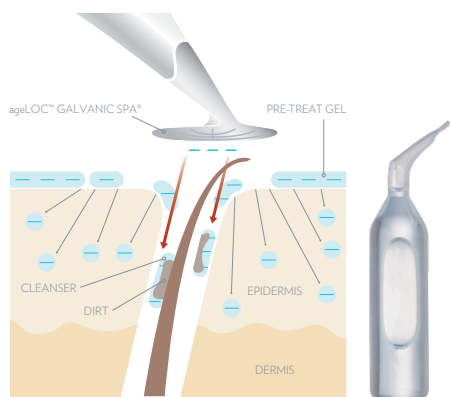

Use the ageLOC Galvanic Spa 2 – 3 times a week so you won't miss out on these secrets to a younger looking you.

Complementing treatment products include ageLOC Galvanic Spa Facial Gels, Tru Face Line Corrector, ageLOC Body Shaping Gel and Nutriol Hair Fitness Treatment.

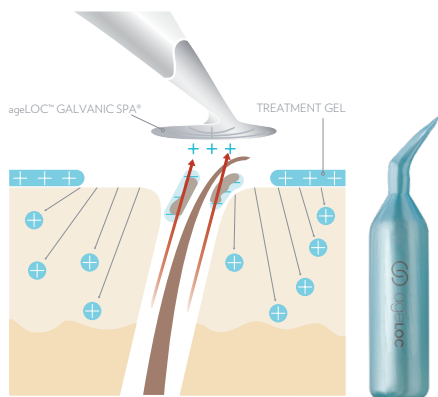

ageLOC GALVANIC SPA FACIAL GELS

Transform a tired and stressed complexion into a revitalized, rejuvenated you. Exclusive patented technology gives you an at-home alternative to time consuming and costly spa treatments – in just five minutes twice a week – with the specially formulated ageLOC Galvanic Spa Facial Gels.

PRE-TREATMENT GEL

During the pre-treat cycle, the ageLOC Galvanic Spa and the Pre-Treatment Gel are negatively charged to repel each other and deliver the Pre-Treat Gel to the skin. Pre-Treat Gel binds to impurities in the skin.

TREATMENT GEL

During the treatment cycle, the ageLOC Galvanic Spa and the Treatment Gel are positively charged. These positive charges repel each other helping to deliver the beneficial ingredients to the skin, including the exclusive ageLOC ingredient blend. The positively charged instrument attracts the remaining negatively charged impurities from the pre-treat cycle, drawing them out of the skin.
