

# Galvanic Spa® Facial Gels

Featuring  ageLOC™

**TIME WILL NEVER TELL**

Pre-Treat Gel  Treatment Gel 

## ageLOC Technology

Nu Skin has unlocked the secret to looking and feeling young. Nu Skin's revolutionary ageLOC technology delivers exclusive solutions that target aging at its very source. By slowing sources that age you from the inside out, ageLOC helps you look, feel, and live younger longer.

## Product Overview

When your complexion looks tired and stressed, a spa facial can provide the revitalization you need, but who has the time? Exclusive patented technology gives you an at-home alternative to spa treatments—in just five minutes—with the Galvanic Spa Instrument and specially formulated facial gels. Pre-Treat Gel helps remove impurities so your pores can breathe and prepares your skin for Treatment Gel. Newly reformulated Treatment Gel contains all the benefits of the original and now features ageLOC technology, a proprietary new ingredient blend that helps slow the signs of aging at their source. Get results that you can see now with benefits that last into the future.

## Target Audience

### Primary Market:

- Women ages 25–65 who are interested in spa quality treatments without the time and expense associated with visiting a day spa.

### Secondary Market:

- Men ages 25–65 who are skin savvy.

## Benefits

### Both Gels

- Work to restore skin's natural vibrancy by removing impurities and promoting cellular energy.
- Supply beneficial ingredients with delivery enhanced by a galvanic current.
- Provide skin regenerative results in just five minutes.

### Pre-Treat Gel

- Removes impurities, allowing pores to breathe.
- Soothes and conditions the skin.

### Treatment Gel

- Slows visible signs of aging at their source with ageLOC technology—a revolutionary anti-aging ingredient blend.

- Facilitates recovery from stress; revives and invigorates tired skin by promoting cellular energy.
- Enhances skin hydration, leaves skin feeling incredibly soft, clean, and refreshed.

## Testimonials

"I liked [the] more powerful ingredients in this gel. [My] skin looked better immediately... [it is] refreshed, vibrant, and moisturized. [The product] is gentle and delicate..., but it is very powerful at the same time.... The result surpassed my expectations."—Natalia S., Russia

"I loved using the Facial Gels with ageLOC—I definitely felt a difference even after the first time. My face and neck [felt] smoother, softer and...the texture more refined, and my skin appeared more vibrant and youthful. Several people remarked on how great I was looking and were impressed with how much younger I appeared than my age. I love knowing ageLOC is in the gels and want to continue using the gels with ageLOC."—Linda G., Canada

"I was with five other women when I tried the Galvanic Spa and gels on one side of my face. Everyone was covering their mouths, giggling, excited.... I could not believe how much younger I looked...I am hooked!"—Sandy P., United States

## Key Ingredients

### Pre-Treat Gel

- Marigold, sea kelp, and vanilla extracts soothe and condition the skin.

### Treatment Gel

- Proprietary ageLOC blend helps slow free radical production at its source in the epidermis and inhibits the visible signs of aging.
- Arginine facilitates recovery from stress.
- Magnesium promotes cellular energy to leave skin invigorated and revitalized.

# Galvanic Spa® Facial Gels TIME WILL NEVER TELL

## Usage/Application

Use after cleansing and toning with the Nu Skin® cleanser and toner of your choice. For best results, use the Galvanic Spa facial gels with the Galvanic Spa Instrument two to three times a week. During each treatment, ensure that your hand is moistened and fingers are touching the chrome panel at all times. Keep the instrument in constant contact with skin for duration of treatment. When you move the instrument you always want to be very gentle and let the galvanic current do the work. You want to apply some very light pressure, but never enough to tug at the skin. When working around the eye area, avoid direct contact with the eyes or eyelids. It's a good habit to simply follow the bone structure around the eye. When working around the mouth, avoid contact with your lips or mouth.

**Pre-Treat Gel**—Apply entire contents of capsule to clean face and neck. Affix Face Conductor to instrument. Select the “one-fountain” and “two minute” settings. After treatment is complete, remove remaining gel from face and neck with a moist towel.

**Treatment Gel**—Apply entire contents of capsule to face and neck. Select the “two-fountain” and “three minute” settings. After treatment, rinse face and apply Nu Skin toner of choice.

## FYI

For more than 50 years, spa and salon professionals have used galvanic currents and gentle massaging action to enhance circulation and concentrate cellular energy. The Galvanic Spa System offers many of the same benefits as a professional spa by using specially formulated products with the Galvanic Spa Instrument, which releases a safe and gentle low-level current that automatically adjusts to your skin's individual needs.

## Breakthrough Research

New research has recently revealed a major, previously hidden source of aging within each of us: an internal aging accelerator in the epidermis, which increases as we age. Present on the surface of our cells, this invisible enemy is capable of generating skin damaging free radicals around the clock that can also destroy collagen and elastin and diminish production of these critical proteins. The result? Looking years older than you are.

In an additional breakthrough, Nu Skin scientists have recently identified an exclusive blend of ingredients that slow production of free radicals in the epidermis—ageLOC technology. ageLOC is the only technology designed to reduce the visible signs of aging by targeting this invisible free radical generator.

## Clinical Information

A recent study by Stanford University has shown that individuals with low serum arNOX levels are clinically graded to look an average of seven years younger than their actual chronological age. Individuals

with high serum levels of arNOX appear to be an average of seven years older than their actual age.

ageLOC ingredients are specially designed to prevent the expression of free radicals in the epidermis associated with the arNOX enzyme. This prevention may help slow the signs of aging that may be caused by accelerated free radical production.

**Apparent Age Relative to arNOX Levels  
Women Ages 48–62  
(Average Age 55)**

## Complementary Products

- **Tru Face® Essence Ultra**—featuring 25 percent more serum than original Tru Face Essence, and combined for the first time with the coenzyme Q10, Tegreen 97®, and a protective antioxidant network, the powerful science of Tru Face Essence Ultra helps restore facial firmness, promotes cellular energy production, and helps prevent future signs of aging.
- **Tru Face® Line Corrector**—features a revolutionary pro-collagen peptide that helps soften moderate to deep lines around the mouth, eyes, and forehead. When used with the positive current (two-fountain) setting on the Galvanic Spa Instrument, the positively charged peptide in Tru Face Line Corrector more effectively permeates the skin, helping to deliver enhanced results.
- **Nu Skin 180® Anti-Aging Skin Therapy System**—designed to reverse the full range of aging effects, each product in this system plays an integral role in delivering anti-aging benefits and works synergistically to enhance results.

## Frequently Asked Questions

**Can people with medical conditions use the Galvanic Spa System?**  
Check with your physician before using the Galvanic Spa System if you are pregnant, have a pacemaker, are epileptic, wear metal braces on your teeth, or have a metal implant.

# Galvanic Spa® Facial Gels TIME WILL NEVER TELL

## ***Can people with acne use Pre-Treat Gel and Treatment Gel?***

Pre-Treat Gel and Treatment Gel are great for any skin type. They should not cause any additional problems for individuals with acne, but are not designed to help or treat this condition. Additionally, the Galvanic Spa System should not be used over an area with many broken capillaries or over an inflamed or open wound.

## ***Can I use part of one gel for one application and then use the rest a few days later?***

The Galvanic Spa facial gels are packaged in individually metered dosages. Using a full vial as directed will ensure that each application provides the most beneficial amount of key ingredients and allows for optimal conductivity for the galvanic current.

## ***How often should I use the Galvanic Spa facial gels?***

You can use the Galvanic Spa facial gels two to three times a week.

## ***Can I use another kind of gel, like Enhancer, with the Galvanic Spa Instrument?***

Using a non-charged gel with the Galvanic Spa would not provide any added benefit. The Galvanic Spa Instrument is designed for use with the Galvanic Spa facial gels, which are charged to work with the galvanic current and have been tested for safety with the Galvanic Spa Instrument.

## ***What are the charges of the gels?***

Pre-Treat Gel has a negative charge and Treatment Gel has a positive charge.

## **Ingredients**

### **Galvanic Spa Pre-Treat Gel**

Water (Aqua), Butylene Glycol, Glycerin, Calendula Officinalis Flower Extract, Macrocystis Pyrifera Extract, Vanilla Planifolia Fruit Extract, Hydroxypropyl Methylcellulose, Glyceryl Acrylate/Acrylic Acid Copolymer, Polysorbate 20, TEA-Cocoyl Glutamate, Propylene Glycol, Carbomer, Potassium Hydroxide, Citric Acid, Disodium EDTA, Chlorphenesin, Phenoxyethanol.

### **Galvanic Spa Treatment Gel**

Water (Aqua), Butylene Glycol, Glycerin, Isoceteth-20, Schizandra Chinensis Fruit Extract, Narcissus Tazetta Bulb Extract, Tocopheryl Nicotinate, Arginine, Magnesium Aspartate, Salicin, Jasminum Officinale (Jasmine) Extract, Rosa Damascena Flower Oil, Santalum Album (Sandalwood) Oil, TEA-Cocoyl Glutamate, Polysorbate 20, Oleth-10, Hydroxypropyl Methylcellulose, Xanthan Gum, Glyceryl Acrylate/Acrylic Acid Copolymer, Propylene Glycol, Disodium EDTA, Citric Acid, Chlorphenesin, Potassium Sorbate, Phenoxyethanol.
